Ensuring competency in maths skills is a fundamental part of pharmacy education. *Maths Skills for Pharmacy* uniquely combines both the scientific calculations underpinning dosage forms with calculations relating to pharmacy practice in a single essential volume. An innovative student-centred approach is taken throughout the text with numerous worked examples and self-test questions to stimulate self-directed learning. Frequent case studies highlight the importance of maths to pharmacy and help students to make that crucial connection between theory and practice. While key take-home messages for each section are summarised in concise learning point boxes, the second edition has been fully updated to reflect latest developments and practices, including even more problem-based learning tools and an additional number of examples and case studies with increased reference to problem-based learning. Written by leading academics with a wealth of experience in pharmacy education, *Maths Skills for Pharmacy 2e* is the ideal textbook for the subject. Digital formats and resources: This text is available for students and institutions to purchase in a variety of formats and is supported by online resources available for users of the e-book. Science Trove resources for students include multiple choice and short answer questions. Instructor resources include figures from the book available to download. The e-book offers a mobile experience and convenient access along with functionality tools, navigation features and links that offer extra learning support. oxfordtextbooks.co.uk/ebooks
