hong kong taxation law and practice 2008 09 is a professional book on the hong kong tax system it explains in detail the three main categories of taxes under the inland revenue ordinance property tax salaries tax and profits tax chapters cover stamp duty and the international aspects of hong kong taxes the book is available in chinese as well translated by ayesha macpherson

the broad sweep of green taxation pollution carbon resource and land taxes and tax incentives for environmental goals makes it complex to analyse green taxation in east asia is a timely and valuable comparative contribution to an expanding literature its scholarly country studies show how green taxes aim to modify behaviour correct externalities regulate or raise revenue as environmental policy and tax policy move closer together green taxes become feasible but are always as the editors say shaped by local political economic and social circumstances miranda stewart university of melbourne australia in today s world environmental challenges grow apace and the impact of taxation measures on these will prove critical green taxation in east asia addresses those challenges it draws on world wide experiences including those from north america and the eu by analysing and critiquing how green taxation can inform develop and implement environmental policies in east asia and beyond this is not a sterile tax debate the

authors of this work all leading scholars in their respective jurisdictions combine economic social and local political perspectives on what should work and what should not the debate is too important to ignore in a world where kyoto seems a long way from washington the fragrant harbour is no longer and even in the lands down under long white clouds and pristine beaches are no longer taken for granted taxation is not a panacea for curing environmental ills but it is as this book admirably shows part of the answer andrew halkyard university of hong kong the right of east asia to grow its economy and provide its citizens with living standards enjoyed elsewhere is as undeniable as the risk to the global environment from this growth a volume that contrasts current initiatives in china and hong kong to reduce that risk with lessons from international experience presented by leading international experts from four continents is more than just timely it can make a key contribution to the development of contemporary thinking on taxation and the environment this work fits the bill perfectly rick krever monash university australia the authors of the jurisdictional chapters in this book are of necessity more focussed on analyzing the interaction today between taxation and related fiscal measures and the environment from these studies it is clear that a great deal is amiss in the way this interface works at present across all the jurisdictions under review but this research also shows positive steps being taken and great scope for further positive tax policy development we can see from this research how smart policy innovation can start right now and also how it can build better foundations for the introduction of more comprehensive globally effective policy frameworks such as those advanced by hansen and sandor time is of the essence the scholarship in this volume shows that lawyers and tax experts are engaged in finding solutions can green taxation make a difference the answer is a resounding yes from the foreword by christine loh the core concern of this book is the potential use of taxation and related measures to foster climate helpful large scale change within east asia the contributing authors examine key issues such as how greater china for instance confronts severe environmental problems which are a direct product of several decades of remarkable economic growth the detailed analysis in this book identifies a range of green taxation guidelines for east asia as it seeks to drive down striking levels of environmental degradation and tackle the climate change challenge addressing an important need in the public policy debate this book will appeal to academics students government policymakers regulators and practitioners in environmental law taxation law and policy as well as comparative environmental law and comparative taxation law and policy public policy commentators and

journalists with an interest in the above areas will also find this book worthwhile and informative this book aims to explore the development model of great bay area gba of china as economic engine under the context of open policy based on comprehensive research both theoretically and practically on the leading free ports in the world and the regional development of well known bay areas it analyzes the challenges and opportunities of gba synergetic free ports a series of initiatives on the development of gba synergetic free ports are proposed including the synergy of space industry finance technological innovation institution social governance and personnel also it ends with a system dynamic model to simulate the regional impact on gba synergetic free ports which indicates that economic development trade government finance and population agglomeration would be improved significantly in the gba synergetic free ports scenario
