doctoral thesis dissertation from the year 2011 in the subject business economics investment and finance university of kassel research group entrepreneurship language english abstract independent venture capital ivc has been paramount in the emergence of the information technology industry in both the united states and europe there are relatively few large global information technology companies in europe a widening gap is observable in the success rate of ivc backed start ups between the u s and europe in the information technology industry this difference could be attributable to the differences in the venture capital financing of start ups in the u s uk germany and france this book deals with differences in venture capital financing of u s uk german and french information technology start ups the comparative analysis is conducted on a microeconomic level managerial venture capital research i e on the venture capital firm level the differences are analyzed for the whole venture capital investment cycle contact phase initial screening phase due diligence phase deal structuring and negotiation phase management phase value adding services and exit phase the research framework model examines the following differences in the venture capital investment cycle average size of investment in the seed stage average size of investment in the start up stage average size of investment in the growth stage percentage of start ups in pre revenue phase at time of investment percentage of start ups not managed by founders but experienced managers percentage of investment in start ups with me too products percentage of market analysis due diligence done informal typical liquidation preference multiple percentage syndicated exits that are outperformers number of tranches per investment round number of board seats per partner and the cash multiple x that defines an outperformer the

empirical research work is based on an extensive scientific online questionnaire with vcs in the u s uk germany and france before the online questionnaire was drafted a preliminary face to face expert interview was conducted with 24 vcs in silicon valley london paris hamburg berlin and munich the primary data collected in the questionnaire served as basis for quantitative parametric and non parametric statistical analysis the book is bespokenly written for decision makers in the venture capital industry in the u s uk germany and france all entrepreneurs and professionals who want to under stand the economics and mechanics of venture capital term sheet clauses venture capital industry professionals vc associations

case study from the year 2018 in the subject business economics offline marketing and online marketing grade 1 3 international school of management campus munich language english abstract since market power has moved from enterprises to consumers and global competition has increased substantially managers in almost all industries need to face enormous performance challenges to avoid being replaced by rivals they are forced to be more innovative in establishing and performing their competitive strategies long term success will not be achieved solely through competitiveness but instead will depend on the ability to evolve new demand and create and gather new markets therefore marketing is one of the most fundamental topics when concentrating on the customers desires mainly it is about picking up the clients by delivering a unique feeling in form of a must have product adidas is counted among one of the global players of sports and lifestyle brands together with its biggest competitors nike and puma with an annual revenue of eur 21 218bn in 2017 over 56 888 employees worldwide and more than 900 million products produced per year the german business is an omnipresent sports and lifestyle brand which became more and more important over the last decades according to statista it was voted one of the ten most reputable companies worldwide in 2018 being the only sports and lifestyle brand in this ranking in addition forbes published an article stating that adidas reached the third place of the world s most valuable sports brands following nike and espn yet by comparing the global revenues of adidas nike and puma from 2006 to 2017 it can be seen that the company founded in 1924 by adi

Adidas in a small village in southern Germany called Herzogenaurach is lagging behind Nike's global revenues for many years. This is one of the core reasons driving the brand with the three stripes to establish new marketing strategies for diversifying and simultaneously increasing its customer portfolio. The sections below concern aspects referring to the research fields e marketing and e commerce online marketing online advertising and social media and mobile marketing. A summary with the most fundamental information is provided at the end of each part.

Based on the introduction of cross border e commerce, this book analyzes and studies cross border e commerce market selection, commodity presentation and platform operation. In addition, the author introduces the background, management, product promotion and marketing promotion of cross border e commerce stores. Besides, the author also studied cross border e commerce customer service and third party payment, cross border e commerce and international logistics. This book has forward thinking and innovative views under the guidance of scientific and operable principles. It is of great significance to put forward a series of targeted suggestions on cross border e commerce and operation management in order to improve the level and efficiency of cross border e commerce and operation so as to promote the long term development of cross border e commerce.

According to market forecasts, e commerce will attain growing importance in the near future. Business transactions are changing; however, until today, the subject lacks profound findings about possible challenges and advantages as well as about success factors of acceptance. The present book informs about the trends in business-to-consumer e commerce both from the retailer's and the customer's point of view. Additionally, it contains a case study of a well-known U.S. retailer and a corresponding customer survey. Based on the results of this study, customer profiles, market segments and strategies are derived. The study shows that e commerce is far more than a mere selling and distributing channel; it is a platform for an integrated marketing that takes customers' needs into consideration while at the same time enforces customer focus. While it may be too early to predict its ultimate impacts, e commerce is certainly a major source of

business opportunity today the greatest threat may be the risk of not acting on this occasion

in the coming years digital technology will radically increase the speed at which business is conducted ultimately digital technology will transform three major elements of any business relationships with customers and business partners commerce information flow and relationships among workers within a company knowledge management and internal business processes business operations e commerce strategies deals with the first of these elements by providing it decision makers with a broad education about the benefits of implementing e commerce solutions in the enterprise it also provides case studies of successful e commerce implementations using microsoft technologies that offer benefits such as increased productivity faster order cycles lower manufacturing costs and lower total cost of ownership the book leads the reader through each case study describes and quantifies its benefits in detail and provides an evaluation guide to help the reader determine whether the case study and implementation are relevant to his or her own business it also describes a set of consistent e commerce business applications and ties them together chapter by chapter the end of the book describes how these solutions can be woven together into a comprehensive enterprise wide system of digital solutions what microsoft calls a digital nervous system dns

embarking on electronic business is a challenging task there is also a lack of clear understanding and comprehensive analysis of various issues and domains of electronic business this book offers a very comprehensive analysis of concepts models and infrastructures of e business it also presents unique observations of current e business practices for different organizations in different economies and provides insights on the future of current leading businesses on the net and the trends of e business the volume will be an effective and indispensable reference book for professionals who are interested in or dealing with e business and businesses that are embarking on e business sample chapter s introduction 106 kb chapter 1 overview part i foundation of e business and e business technologies 318 kb contents overview of current status of e business overview part i foundation of e business and e business technologies j xu m quaddus overview
