the russian federation has a history of more than twenty years of
transformation to a market economy but as well to a knowledge society to
look back on this study takes a look at the knowledge generation
knowledge transmission and knowledge use inside the federation since the
early 1990s furthermore in light of the high dependence of the russian

economy on the oil and gas sectors this study analyzes the impact knowledge related factors have on regional income generation following thereby in the direction of schumpeterian growth theory the study combines descriptive with empirical analyses to paint a picture as detailed as possible of the russian knowledge society and its innovative potential

this collection of papers investigates two specific linguistic phenomena from the point of view of first and second language acquisition while observations on the acquisition of scrambling or pronominal clitics can be found in the literature up until the recent past they were sparse and often buried in other issues this volume fills a long existing gap in providing a collection of articles which focus on language acquisition but at the same time address the overarching syntactic issues involved for example the x bar status of clitics base generation vs movement accounts of scrambling this volume contains an overview of l1 and in one case l2 acquisition data from a number of different languages including bernese swiss german dutch english french german italian spanish and swedish as well as from several theoretical points of view with these two clause internal processes at its center these language acquisition data are considered to be crucial in the validation of analyses of these specific linguistic phenomena in adult grammars the contributions in this volume include the earliest thoughts in this vein and for this reason should be viewed as a starting point for discussions within theoretical linguistics and language acquisition alike
