these principles of corporate governance endorsed by the oecd council at ministerial level in 1999 provide guidelines and standards to insure inclusion accountability and abilit to attract capital

reading the company law action plan of the european commission issued on 21 may 2003 one cannot help having the impression that european company law policy has a certain focus on listed companies and will try to enhance their efficiency by way of state competition if possible and by harmonisation only if need be the same is true under the new action plan on european company law and corporate governance issued on 12 december 2012 the book to the contrary is first of all based on the fact that throughout europe only a small number of corporations are listed at all the reality of corporate law is dominated by small and medium size enterprises therefore legal standards pertaining to control transactions or investor protection and other topics of capital market law are not part of the core principles of corporate

law the question is not how to protect best the interests of shareholders but rather the interests of all parties affected by a firm's activities including its creditors and other third parties the treaty on the functioning of the european union reminds us not to forget that when drawing the attention of the european legislator in the field of corporate law and freedom of establishment to directives safeguarding the protection of the interests of members and others art 50 the book is focusing on the perspective of key jurisdictions in continental europe such as in an alphabetical order austria france germany italy spain switzerland and considering seminal inputs from belgium the netherlands portugal and scandinavian countries highlights an up to date contribution to the imminent reforms in european company law emphasizing the continental european perspective written by authors with great practical experience

revised and updated 10th edition of a legal textbook on corporations law this edition incorporates the statutory amendments made by the corporate law economic reform program act 1999 topics covered include companies and company law a company as a corporate entity the law of corporate governance corporate liability corporate finance corporate control and restructuring and external administration includes table of cases table of statutes references and abbreviations table of destinations and index

exam revision from the year 2012 in the subject business economics investment and finance stralsund university of applied sciences language english abstract this summary contains a list of the most important points mentioned in principles of corporate finance by brealey et al 11th edition

the comparative law yearbook of international business published under the aegis of the center for international legal studies austria in this 44th volume aims to add to the contemporary discourse by exploring a wide array of challenges faced in the arena of business law it serves to provide insight to business law practitioners and academics on the latest developments the following topics have been discussed how uniformity of the treaties and conventions is compromised after they are subjected to the varied interpretation of domestic law how the contractual laws of different jurisdictions deal with situations such as global health crises the role of the world trade organization in enhancing the legitimacy of global economic governance within the scope of the trade laws how the concept of naked licensing in trademark law differs in the united states united kingdom and india how the best effort clauses operate as a mechanism to deal with unenforceable obligations in pandemic like situations and how it is difficult to implement and comply with the same whether prime finance is the last link in the global governance of financial institutions on international law making or just a part of the social circle whether mediation should be made compulsory for all commercial litigation cases or is it time for the new rendition of halsey v milton keynes the legal challenges faced by the adoption of insurtech in the fintech industry how the ex post mechanism of corporate insolvency and bankruptcy laws differs with respect to

the rights and position of creditors in the liquidation process in india and germany how the corporate governance code varies across different jurisdictions such as mainland china hong kong south korea singapore japan and germany how the international investment law uncovers the inequalities between foreign investors and states developed and developing states and foreign and domestic investors the authors are practitioners and academics from argentina australia belgium china finland germany hong kong india singapore south korea and the united kingdom they provide a nuanced perspective on a large spectrum of issues witnessed in the arena of business laws

this book explores the connection between ownership on one hand and immunity from legal responsibility on the other it presents a definition of the concept of beneficial ownership the reasons for its concealment and failures in international legal structures and arrangements globally states confront complex crimes such as corruption tax evasion doctrinal fanaticism slave trafficking terrorism and war at the personal level men and women may seek to escape their creditors to disinherit unwanted heirs to cheat divorced partners and to appear straightforward when this is not the case the response of politicians and regulators has been a global state initiative to identify beneficial owners via public registers to promote transparency and accountability yet at the same time there is an equally powerful global and personal counter initiative to promote beneficial ownership avoidance where there is no owner there is no accountability this book examines what ownership means in legal terms across multiple legal systems and explains why singling out ownership as being pivotal to state and personal accountability is a strategy both flawed and disingenuous it is argued that an apparent lack of political will coupled with shape shifting definitions of ownership have resulted in tokenism particular attention is paid to those orphan structures which have evolved from standard models or which have been designed for the purpose in each case of facilitating ownership concealment and avoidance the author explains how the virtual world of the blockchain crypto assets and cryptocurrency and virtual entities such as the decentralised autonomous organisations daos all of which elude legal classification have opened a new world of possibilities applicable across all jurisdictions and legal systems the book will be a valuable resource for academics researchers and policy makers working in the areas of financial crime regulation compliance business and accountancy
