characterized by flat structure informality and openness this typology is used to analyze the prison and agency as organizations and to analyze their interactions in the course of setting up the program the study shows how program implementation was affected by the respective organizations failure to recognize and harmonize their differences in structure mission and approach to dealing with inmates and discusses the organizational lessons learned the study makes recommendations regarding organizational issues that should be addressed when prisons outsource internal functions to outside organizations

first time up an insider s friendly question from 1960s counter culture perfectly captures the spirit of this book a short supportive practical guide for the first time college composition instructor the book is upbeat wise but friendly casual but knowledgeable like the voice that may have introduced

you to certain other firsts with an experiential focus rather than a theoretical one first time up will be a strong addition to the newcomer's professional library and a great candidate for the practicum reading list. Dethier, author of *The Composition Instructor's Survival Guide* and from Dylan to Donne directly addresses the common headaches, nightmares, and epiphanies of composition teaching, especially the ones that face the new teacher, and since legions of new college composition teachers are either graduate instructors (as) or adjuncts without a formal background in composition studies, he assumes these folks as his primary audience. Dethier's voice is casual but it conveys concern, humor, experience, and reassurance to the first timer; he addresses all major areas that graduate instructors or new adjuncts in a writing program are sure to face, from career anxiety to thoughts on grading and keeping good classroom records. Dethier's own eclecticism is well represented here, but he reviews with considerable deftness the value of contemporary scholarship to first-time writing instructors, many of whom will be impatient with high theory throughout the work. He affirms a humane, confident approach to teaching along with a true affection for college students and for teachers just learning to deal with them.

For courses in first-year composition rhetoric, this version of *The Curious Writer* has been updated to reflect the 8th edition of the MLA Handbook (April 2016). Inquiry at the heart of good writing: we write to learn as much as we do to express what we already know. In his remarkably personal and engaging voice, Bruce Ballenger makes that powerful concept central to *The Curious Writer*. The *Curious Writer* doesn't read like a textbook or provide a formula for composing essays; instead, it encourages students to suspend judgment, to ask questions, and to seek answers much like academics do. Yet it covers a wide range of genres beyond the academic essay: narrative, profile, review, ethnography, argument, and more, all with a distinctive approach and personality that is lacking in other texts. It also reinforces the assumption that genres are malleable, with a new chapter on repurposing or re-genre-ing. Students love that this book helps them learn to write by pursuing their own curiosity. Teachers appreciate that Ballenger gives students ample opportunity to develop the habits of mind necessary to become critical thinkers and curious writers. The 8th edition introduces sweeping changes to the philosophy and details of MLA works cited entries, responding to the increasing mobility of texts. MLA now encourages writers to focus on the process of crafting the citation, beginning with the same questions for any source. These changes then align with current best practices in the teaching of writing, which privilege inquiry and critical thinking over rote recall and rule following.
