this book explores the catching up process of a group of large emerging markets the new economic powers this process is extremely robust and should be considered as the defining trend of our age resulting in a pivotal change in world economics and politics the outcome is that the west cannot dominate the world as it did in the previous 200 years today s world is pluralistic and the larger emerging markets are becoming increasingly influential that is the new reality which at times caused and will cause further discomfort and uncertainty in the west in the eight chapters the viewpoints on globalization of nine new economic powers are discussed each chapter is an essential element in understanding the process of globalization and the role the new economic powers play in it essentially their views are guided by a fundamental different look about the role of the market and the government in society compared to what we see in the west the new economic powers understand the power of the market to create prosperity but at the same time emphasize the need for government interference this delicate balance is particularly visible with respect to their international trade and investment policies which bring them in conflict with western countries and multilateral institutions such as the wto and the imf the book helps the reader to understand the fundamental choices made by policymakers in the new economic powers

this book focuses on recent advances in our understanding of wild edible mycorrhizal fungi truffle and mushrooms and their cultivation in addition to providing fresh insights into various topics e g taxonomy ecology cultivation and environmental impact it also demonstrates the clear but fragile link between wild edible mushrooms and human societies comprising 17 chapters written by 41 experts from 13 countries on four continents it enables readers to grasp the importance of protecting this unique

invaluable renewable resource in the context of climate change and unprecedented biodiversity loss the book inspires professionals and encourages young researchers to enter this field to develop the sustainable use of wild edible mushrooms using modern tools and approaches it also highlights the importance of protecting forested environments saving species from extinction and generating a significant income for local populations while keeping alive and renewing the link between humans and wild edible mushrooms so that in the future the sustainable farming and use of edible mycorrhizal mushrooms will play a predominant role in the management and preservation of forested lands

the first wide ranging organic analysis of the sociology of unmarkedness and taken for grantedness this volume investigates the asymmetry between how we attend to the culturally emphasized features of social reality and ignore the culturally unmarked ones concerned with the structures of cultural invisibility unconscious rules of irrelevance automatic frames of meaning and collective attention patterns it brings together scholarship spanning sociology anthropology and social psychology to cover various aspects of humdrum unglamorous nondescript nothing to write at home about social phenomena developing the key assumptions underpinnings and implications of this field of study as comprehensive analysis of unremarked features of our social existence this book will appeal to scholars across the social sciences with interests in social theory and the sociology of everyday life

this collection of papers represents the outcomes of the international symposium held in delft the netherlands on june 13 15 2007 at the occasion of the 50th anniversary of the unesco ihe institute for water education the papers discuss how to contribute to the sustainability of effective international development and water management with a digest of lessons learned on local knowledge and capacity development authors expose recent research strategies and policy positions water for a changing world starts with an introduction and overview of the water resources and the water supply and sanitation sectors in developing countries and worldwide topics of these reviews are water security environmental integrity the newest earth system science technologies integrated urban water management and the global local nexus of water governance the second part presents positions on catalyzing and disseminating knowledge and capacity development in response to the current challenges and

opportunities it consists of a variety of papers on theory and analysis of capacity development methods and case studies and policy positions the authors represent a diverse and representative group of prominent actors practitioners and academics within the water sanitation and development sectors

includes related teaching materials
