effective care of the cancer patient increasingly involves systemic treatment and as the range of available therapeutic agents continues to expand the medical oncologist must be fully aware of the rationale for choosing specific drugs and combinations already acclaimed

in previous editions as a key source of reference for all working in the field of oncology the third edition of this text has now been completely revised with important new chapters and illustrations throughout to keep it at the forefront of cancer medicine short contents

historical review of arctic exploration including barents hudson the spitzbergen route east coast of greenland baffin bay norwegian voyages off novaya zemlya british arctic expedition of 1875 under nares russian voyages and results of arctic discoveries

this comprehensive clinically oriented text can serve as either a stand alone reference or as a companion to the atlas sections cover the development of regional anesthesia basic science induction of regional anesthesia side effects complications and concurrent medical problems and clinical applications each chapter features excellent illustrations and clinical pearls

in english french spanish parallel title quatri me conf rence cartographique r gionale des nations unies pour l'am rique

whether seen as a land of opportunity or as paradise lost the american west took shape in the nation's imagination with the help of those who wrote about it but two groups who did much to shape that perception are often overlooked today promoters trying to lure settlers and investors to the west insisted that the frontier had already been tamed that the only frontiers remaining were those of opportunity through posters pamphlets newspaper articles and other printed pieces these boosters literally imagined places into existence by depicting backwater areas as settled culturally developed regions where newcomers would find none of the hardships associated with frontier life quick on their heels some of the west's original settlers had begun publishing their reminiscences in books and periodicals and banding together in pioneer societies to sustain their conception of frontier heritage their selective memory focused on the savage wilderness they had tamed exaggerating the past every bit as much as promoters exaggerated the present although they are generally seen today as unscrupulous charlatans and tellers of tall tales david wrobel reveals that these promoters and reminiscers were more significant than their detractors have suggested by exploring the vast literature produced by these individuals from the end of the civil war through the 1920s he clarifies the pivotal impact of their works on our vision of both the historic and mythic west in examining their role in forging both sense of place within the west and the nation's sense of the west as a place wrobel shows that these works were vital to the process of identity formation among westerners themselves and to the construction of a west in the national imagination wrobel also sheds light on the often elitist sometimes racist legacies of both groups through their characterizations of native americans african americans mexican americans and asian americans in the era wrobel examines promoters painted the future of each western place as if it were already present while the old timers preserved the past as if it were still present but as he also demonstrates that west has not really changed much promoters still tout its promise while old timers still try to preserve their selective memories even relatively recent western residents still tap into the region's mythic pioneer heritage as they form their attachments to place promised lands shows us that the west may well move into the twenty first century but our images of it are forever

rooted in the nineteenth
