kabbalah it is very difficult and to some extent even paradoxical doctrine is very different from the concept of thinking of those ideas which are peculiar to thinking of the majority of europeans on the other hand the inherent kabbalah mystery incompleteness and symbolic imagery pronounced mysticism plaque were perhaps the most intriguing its qualities that attracted thereto plurality thinkers prone to the occult however the important thing they all saw in kabbalah refraction characteristic of western occult ideas and propositions that all the great diversity of the phenomena of the universe young and old is a certain unity that all things and phenomena are parts ordered whole that the universe itself and all the hidden relationships between phenomena which at first glance seem to be

chaotic and did not related to each other in fact control the mysterious laws that letters and numbers are full of meaning important key to understanding the laws of the universe that inspiration and imagination is much faster and more reliable can lead to the attainment of the ultimate truth than the proverbial common sense that man is both god and the universe in miniature and finally the most important thing that there is a spiritual path going that people can free themselves from the purely human limitations and therefore to become a superman and understand god kabbalah of course not the only doctrine setting out these and similar ideas they can be found in the system of the tarot despite the fact that the kabbalists of the past centuries people were purely religious and perform religious commandments and ceremonies this however did not prevent the fact that kabbalah eventually gained many of the features and properties of magic abraham abulafia one of the greatest kabbalists and mystics of the xiii century was convinced that the kabbalah a very effective means to achieve the magical purposes and therefore warned fellow of errors slipping into magic however the kabbalistic doctrine of climbing opportunities from lowest to highest and the reunification of the earthly and the heavenly is a very valuable tool for the mystic the aspirant for bliss in communion with god and for the magician who wants to subjugate all the spiritual and physical strength and sees itself as the person of god capable to understand the supreme art of magic in this sense of great interest is a special aspect of the teachings the so called practical kabbalah is based on the belief that with the help of special rituals prayers and internal volitional acts a person can actively intervene in the history of the process eg zoom messiah for each stimulation from below from the man always corresponds to the arousal from above from god

lampert harnesses the power of this complex belief system for healing and security publishers weekly use talismans amulets visualizations and prayers to ward off the evil eye and other misfortunes and repel negative energies learn meditations to heal the body and aura to bring harmony and tranquility to express and receive love and more kabbalistic practices are also included for dream interpretation divination and sexual magick
