african philosophy

the africa study bible brings together 350 contributors from over 50 countries providing a unique african perspective it s an all in one course in biblical content theology history and culture with special attention to the african context each feature was planned by african leaders to help readers grow strong in jesus christ by providing understanding and instruction on how to live a good and righteous life publisher

this volume documents the 19th edition of the biannual international association for the study of popular music in focus of the conference were present and future developments for example the diminishing income potential for musicians as well as the recording industry as a whole concurrent with the decreasing relevance of popular music in youth culture this is where

computer games and social media come to the forefront at the same time the research of popular music has emancipated itself from its initial outsider

original scholarly monograph

this book is a comprehensive study of the vocabularies of different languages and their similarities and differences it is a polyglot comparative study that covers all the families of languages the book provides a detailed analysis of the origins of words and their evolution over time it also includes a comparison of words from different languages that have similar meanings

this book explores the interaction between corpus stylistics and translation studies it shows how corpus methods can be used to compare literary texts to their translations through the analysis of joseph conrad s heart of darkness and four of its italian translations the comparison focuses on stylistic features related to the major themes of heart of darkness by combining quantitative and qualitative techniques mastropierro discusses how alterations to the original s stylistic features can affect the interpretation of the themes in translation the discussion illuminates the manipulative effects that translating can have on the reception of a text showing how textual alterations can trigger different readings this book advances the multidisciplinary dialogue between corpus linguistics and translation studies and is a valuable resource for students and researchers interested in the application of corpus approaches to stylistics and translation
