this book analyses obligations that arise in our membership of social groups it considers how to deal with the complex responsibilities we have in our relationships to family friends and workmates and how far ethics may ground our commitments to organisations corporations and countries

this volume is an introductory text to the individual and organizational dynamics by an author with extensive experience in the field it examines the unconscious processes of human behaviour that affect all organizations and institutions it is aimed at those who are currently employed as managers or consultants students of management and others with the opportunity to develop knowledge skills and ability in an area of organizational behaviour which has been largely inaccessible to the majority

the book presents the first comprehensive survey of limits of the intentional control of action from an interdisciplinary perspective it brings together leading scholars from philosophy psychology and the law to elucidate this theoretically and practically important topic from a variety of theoretical and disciplinary approaches it provides reflections on conceptual foundations as well as a wealth of empirical data and will be a valuable resource for students and researchers alike among the authors clancy blair todd s braver michael w cole anika fäsche maayan davidov peter gollwitzer kai robin grzyb tobias heikamp gabriele oettingen rachel mckinnon nachschon meiran hans christian röhl michael schmitz john r searle gottfried seebaß gisela trommsdorff felix thiede j lukas thürmer frank wieber

this volume is a conceptual analysis of issues in group responsibility an attempt is made to identify factors which affect the degree to which individuals sharing responsibility for what happens bear responsibility for it as well as factors which are erroneously judged to have such an effect an examination of these issues leads to extended discussions of acting or failing to act in the company of others the sequence in which the agents in a group perform acts and group risk taking it is argued that the failure to understand such issues has contributed to a widespread uncertainty in contemporary society as to the moral implications of participating in group actions

a paper reprint of the 1988 original it is a political history that describes and analyzes the management of organized knowledge wheatley takes flexner and the carnegie foundation of 1910 as the model portz political science northeastern u combines a synthesis of the literature on urban politics and political economy with a close analysis of plant closings in pittsburgh pennsylvania louisville kentucky and waterloo iowa to illuminate the complexity of constraints upon and range of local government efforts to control the economic damage caused by shutdowns paper edition unseen 12 95 annotation copyrighted by book news inc portland or

a succinct lively and robust introduction to the subject of ob that offers clear focussed coverage of the most important topics in an accessible way brooks et al aims to encourage critical examination of the theory of organisational behaviour whilst also enabling students to interpret and deal with real organisational problems it has proved a popular student choice because it combines relative brevity with thorough coverage and plentiful real world examples this book is particularly well suited to short or introductory courses or those requiring a concise but broad introduction to organisational behaviour

as technology is revolutionized and organizations are expanded the underlying value framework for decision and policy making becomes more and more crucial this book undertakes to provide a clear framework for the value issue of business as it is faced by any decision maker it provides a basis for systematic discussion problem solving and inquiry into the many social value problems of business today whenever the social value issue of business is raised in public discussion assumptions from the classical economic model are generally taken for granted in the very framing of the issue therefore this book begins with the premise that the first step in any analysis of the business value issue must be examine these basic assumptions section i presents a critique of the underlying value assumptions and of the popular formulas based on them from an economic point of view section ii presents an alternative on the grounds that business is a social system as well as a technical economic system it proposes that the value issue be structured in social rather than in solely economic terms it demonstrates that it is from all of the social acts of business rather than from abstracted economic acts that the formulation of the value issue must be derived it clarifies the value issue inherent in the relationship of business to the individual to groups and to domestic and foreign societies finally on the basis of the systematic analysis of the value issue section iii undertakes an examination of the topic of method for objective value inquiry publisher
