this book the fourth volume in the mcgill international entrepreneurship series brings together 27 top scholars to explore the structural complexities evolving relations and dynamic forces that are shaping a new system of multi polar multi level international business relations it examines entrepreneurial efforts and relations in different national and corporate cultures each embedded in and also constrained by country specific socio economic structures and each vying for consumer attentions in competitive global markets the new millennia has experienced much rapid change much of it implicit intangible and not covered by the headlines of the popular press the bipolar business system of the 20th century that prioritized the relationship between firms and consumers of developed countries is giving way to an emerging multi polar and multi level international system that considers consumers and companies in developing economies as well in this book scholars from around the world analyze the nascent architecture and relations in this quickly evolving system they explore the structural complexities evolving relations and dynamic forces that are shaping and re shaping the new system and examine entrepreneurial efforts and relations that cement its structure the chapters in this volume portray the operating conditions of firms across 14 emerging country environments and industries ranging from basic foods and information

technology to complex business processes students and professors of international business entrepreneurship marketing and management studies will find this volume an indispensable addition to the literature

strategic management has been increasingly characterized by an emphasis on core competences firms are advised to divest unrelated businesses and return to core business moreover competitive advantage is now increasingly seen as a matter of efficiently deploying scarce knowledge resources to product markets much of this change in emphasis has occurred because of the emergence of a unified and rigorous approach to strategy often called the resource based approach this reader brings together extracts from the seminal articles that created this dominant perspective in strategic management it includes the pioneering work of selznick penrose and chandler and more recent writing by wernerfelt barney teece and prahalad and hamel

resources technology and strategy brings together contributors from europe north america and asia to consider the strategic relationship between technology and other resources such as production capabilities marketing prowess finance and organisational culture throughout the book these experts take a critical approach to rbp resource based perspective in order to assess both its strengths and weaknesses case studies also highlight the importance of both having and not having strong technological capabilities in settings as diverse as the us semiconductor industry small family manufacturing firms in hong kong and state owned enterprises in china

for specialists and nonspecialists alike this perceptive selection of the newest and up and coming tools and techniques of competitive intelligence offering a well balanced combination of theory and practice it shows how advances in computers and technology have accelerated progress in ci management and the ways in which ci has affected and been affected by all major business functions and processes it explores applications to organizations of various sizes and types in both the public and private sectors editors fleisher and blenkhorn link leading edge research in ci to advances in current practice and balance pragmatic against conceptual concerns analysts strategists and organizational decision makers at higher levels will find the book especially valuable as they seek to make sense of the business environment and assess their organizations evolving dynamic places in it the pace of change in today s global competitive economy is greater than at any time in recorded history thus as never before companies need better tools for business and competitive analysis the book surveys applications of ci that are critical to business processes such as mergers and acquisitions and to evolving industries such as biotechnology they focus on how push and pull internet technologies affect data gathering and analysis and how ci can be managerially assessed using multiple evaluative approaches unavailable until now in the public domain they then turn to the future and lay out some startling yet plausible viewpoints on what the next frontiers of competitive intelligence will be and how organizations can and must ready themselves for them

this research project was driven by curiosity about the actual impact of corporate venture capital activities on the investing company at the end of 1998 when i developed the idea of analyzing cvc further corporate venturing activities began to increase again after they had gone through two earlier boom and bust cycles at that time i did not envision how large the dimensions of cvc investments would become and how sharp the decrease afterwards would be this latest cycle confirmed my desire to determine the impact of cvc and contribute to the understanding of cvc in theory and management practice this research project was accepted as a dissertation by the
