with the publications of the international subarachnoid aneurysm trial isat endovascular treatment has become one of the most important treatments of intracranial aneurysms and was used more and more in clinic settings however intracranial complex aneurysms such as giant aneurysms wide necked aneurysms fusiform aneurysms and dissecting aneurysms still impose a huge challenge for clinicians flow diverter fd is a novel device for the treatment of aneurysms based on the understanding of hemodynamic mechanism of aneurysm occlusion it could divert the blood flow from the aneurysm neck and promote aneurysm occlusion without inserting coils into the aneurysms in addition the fds had the advantage of simplifying the procedure and relieving the mass effect

the growing interest in neuroscience by social scientists and philosophers has favored the emergence of a new multidisciplinary field neuroethics this discipline addresses the study of the social cognitive principles the neurobiological determinants and the impact on technology design and use of moral judgment decision making and behavior it adopts an integrated approach which builds on a backbone of a philosophical spirit while using the scientific method in the study of the concept of morality and its expressions from bodily reactions to behaviors related topics may include social cognition theory of mind empathy altruism conformity prejudice and discrimination attitudes and persuasion this collection is based on a multidisciplinary approach that relies

on the cross fertilization between disciplines such as philosophy social psychology social neuroscience and clinical psychology to answer a fundamental question what does it mean to be moral animals the research topic aims to make recent discoveries on moral behavior and social cognition accessible to a broad audience interested in how morality defines human beings their interactions and their social world

how should the word of god be interpreted and applied today does our modern culture affect how we read the bible can certain passages be interpreted in different contexts and in different ways all the while acknowledging that god speaks with a clear and consistent voice these are the enduring challenges of hermeneutics in this volume no less than sixteen reformed scholars from four different countries join together to tackle the hard questions that often arise when we busy ourselves with the weighty responsibility of interpreting holy scripture as iron sharpens iron so also these reformed scholars challenge each other and their readers to ask not only how hermeneutics can be done but ultimately how it should be done so that god s word of truth may be handled correctly 2 tim 2 15

this volume examines mystical experiences as portrayed in various ways by authors such as philosophers mystics psychoanalysts writers and peasant women these mystical authors have throughout the ages attempted to convey the unsayable through writings paintings or oral stories the immediate experience of god is the primary source and ultimate goal of these mystical expressions this experience is essentially ineffable yet all mystical authors either consciously or unconsciously feel an urge to convey what they have undergone in the moments of rapture at the same time they are in the role of intermediaries the goal of their self expression either written painted or oral is to make others somehow understand or feel what they have experienced and to lead others toward the spiritual goal of human life this volume studies the mystical experiences and the way they have been

described or portrayed in west european culture from antiquity to the present from an interdisciplinary perspective and approaches the concept of immediate experience in various ways

george herbert mead is widely considered one of the most influential american philosophers of the twentieth century and this edited collection shows that his work remains vibrant and relevant to many areas of scholarly inquiry today the sixteen contributions provide detailed analyses of mead s importance to innovative fields of scholarship including cognitive science environmental studies democratic epistemology narratological and social ethics non teleological historiography and the history of the natural and social sciences the volume makes a coherent statement that places mead in dialogue with current research pushing these domains of scholarship forward while also revitalizing the growing literature on an author who has an ongoing major influence on sociology psychology and philosophy

reprint of the original first published in 1873 the antigonos publishing house specialises in the publication of reprints of historical books we make sure that these works are made available to the public in good condition in order to preserve their cultural heritage

universities and the societies they serve suffer from a crisis of meaning we have fanatically developed our ability to produce knowledge leaving our ability to craft meaning by the wayside university graduates often have an abundance of knowledge but lack the wisdom to use it meaningfully meanwhile people inside and outside academia are searching for meaning but are imprisoned in a lexicon of clichés and sound bites that stunts their quest in response learning for meaning s sake begins with the assertion that higher education in the 21st century should renounce its obsession with job training and knowledge production and should instead turn toward questions of meaning drawing upon a diverse range of philosophical thought learning for meaning s sake offers the vision and philosophical foundation for a new type of higher learning one that is devoted to the existential

questions at the core of human existence

a fascinating chapter in american social and cultural history like our very own offers compelling evidence of the role that adoption has played in our evolving efforts to define the meaning and nature of both motherhood and family book jacket
