the purpose of the analysis is to study the implications it can have for a company to acquire the swan license the analysis takes a broad focus and investigates the following three themes the motivation for companies to acquire the swan label the implementation of the swan label the impact of acquiring the swan label the project aims at doing this by performing company visits to 16 companies from the five nordic countries representing different company sizes and sectors the project is commissioned by the swan group under the working group for sustainable consumption and production group hkp

gruppen of the nordic council of ministers the analysis is conducted by damvad with expert assistance from Åke thidell lund university

seventeen nordic and international labelling and certification schemes met at an international workshop on dialogue and cooperation at lund s university in november 2011 with this meeting among schemes across fields such as the environment organic fair trade and sustainability ncm working group on sustainable consumption and production and nordic ecolabelling has taken a first step to create transparency and exchange of experience between label schemes with relevance for sustainable consumption and production prior to the workshop in lund the consulting firm ecostory mapped information schemes on the nordic markets and carried out a stakeholder survey ecostory found four megatrends that are important for schemes within scp convergence towards sustainability information overload regulation as driver and national regional labels on global markets this report presents findings from the mapping of schemes the stakeholder survey and the workshop on dialogue and cooperation ecostory describes 10 key challenges and recommends policy responses and gives tentative proposals to follow up and support cooperation between the swan and other information systems

it is easier than you think to make the responsible choice for your home work or free time look for the eu ecolabel for products and services that are better for the environment and better for you it is the label that makes green choices easy additional information ecolabel eu

2000 years ago the roman architect marcus vitruvius pollio wrote the ten books on architecture establishing the concept of the pattern book offering design principles and solutions that is still referred to in every architect s education a green vitruvius is intended as a green pattern book for today now fully updated this well established textbook provides advice suitable for undergraduate and post graduate students on the integration of sustainable practice into the design and construction process the issues to be considered the strategies to be adopted the elements of green design and design evaluation within the process classic design elegance is found in the holistic clear solution

this book provides a comprehensive up to date overview of the different environmental strategies adopted in the football world to foster sustainability the authors lay out useful insights both for scholars and practitioners to improve good governance in football organisations by empowering environmental organisational and operational actions as well as examining practical methods of implementing green initiatives the book discusses their added value from different perspectives including football fans football managers and policymakers by identifying the most important green actions for the dissemination of environmentally friendly behaviours at both individual and organisational levels the book demonstrates how football organisations can use operational and organisational methods to develop an environmental sustainability strategy the book contributes to developing the role of the football world by covering different facets of

sustainability such as the circular economy climate change green marketing fans engagement and more it will be a valuable resource for scholars and students of environmental management sustainable business and corporate social responsibility as well as professionals working in the football industry

not only ecolabelling and energy labeling but also its wider framework namely the idea of sustainable consumption and production are recent issues of the globe compared to consumer product safety which dates back to the 19th century previous studies analyze the regulation of ecolabelling and energy labeling neglecting its common aspects with product labeling for human health and safety purposes this article focuses on the development of those three types of product labels namely ce marking eu energy label and eu ecolabel employed in the european union eu also with a view to predict their future it is revealed that increasing societal awareness in ecological issues tend to converge earlier measures of product safety labelling ce marking into new measures of ecolabelling eu ecolabel in terms of substance secondly the article shows that both eu energy label and eu ecolabel tend to converge into ce marking particularly in terms of standardisation procedures as well as conformity assessment market surveillance and enforcement interestingly convergence tends to occur in both directions regarding the substance and standardisation of eu ecolabel vis à vis ce marking in the end it is suggested that eu ecolabel may and perhaps should become mandatory in the future in view of the historical development and justifications regarding mandatory ce marking and eu energy label on the other hand a mandatory federal ecolabel does not seem so likely in case of the united states us due to its different attitude towards product labeling as well as consumers impact on the environment nevertheless some procedural convergence is visible among product labels

the publication of this handbook will be interested for everyone who will learn what the eu has done to protect the environment and to improve the quality of life in europe and what can be achieved in future well structured concise and forward looking the handbook describes the history and current status of eu environmental law but also looks to the future by analysing the strengths and weaknesses of the actions taken so far

the great challenge faced by economies today is to integrate environmental sustainability with economic growth and welfare by decoupling environmental degradation from economic growth and doing more with less this is one of the key objectives of the european union but the consequences of climate change and the growing demand for energy and resources are challenging this objective it is now time to move towards an energy and resource efficient economy sustainable consumption and production maximises business potential to transform environmental challenges into economic opportunities and provides a better deal for consumers the challenge is to improve the overall environmental performance of products throughout their life cycle to boost the demand for better products and production technologies and to help consumers in making informed choices

this is a new sixteenth edition of the directory of eu information sources it brings together a broad range of information sources comprising not only the various constituent institutions of the european union their personnel publications information websites and representations in europe and the rest of the world but also diplomatic representation in brussels european level trade and professional associations and ngos consultants and lawyers specializing in eu affairs press agencies eu grants and loans programmes and universities offering courses in european integration this is the most comprehensive compilation of contacts and published information on the european union providing access to over 12 500 information sources

this is the third review in the series of reports on the state of the environment throughout the european continent which also provides an assessment of how the main economic driving forces put pressure on the environment and identifies key areas where further action is needed it was prepared for the meeting of european environmental ministers held under the auspices of the un economic commission for europe in ukraine in may 2003 for the first time this review covers the entire russian federation and the 11 other eastern european caucasus and central asian eecca states chapters consider developments in socio economic sectors such as energy industry agriculture transport and tourism prominent environmental problems such as climate change ozone depletion air pollution and soil degradation cross cutting issues of biological diversity and human health impacts and policy management aspects

recognizing the status of europe's nature a history of innovation in conservation the results cause for concern in the spotlight 1 reconciling agriculture and conservation 2 the role of natura 2000 and life 3 climatic changes adding to pressure conservation reporting a learning process conservation in focus 1 beech forests 2 seals 3 european pond turtle 4 large carnivores
