two have not appeared in English before in assessing the likely future evolution of sociology in particular and the social sciences in general the author both draws upon ideas established in his more abstract theoretical writings and examines critically competing traditions of thought those looking for an accessible introduction to Giddens's writing will find in this book a set of clear expositions of his basic ideas by situating these ideas in relation to the critical assessment of the views of others however the author provides new sources of insight into the distinctiveness of his own claims

the chapters specifically devoted to theory discuss classical figures but include treatment of recent authors such as Ulrich Beck Manuel Castells as well as Anthony Giddens own contribution to sociological theory the book will be accompanied by a companion website which will provide online support for users of sociology both lecturers and students from the site lecturers will be able to download an instructor's manual and a variety of invaluable teaching aids including powerpoint slides featuring maps graphs and figures from the text and sets of sample essay questions and multiple choice questions for lecturer customization students will find chapter by chapter web links to important internet resources online quizzes and competitions and a whole range of other learning facilities

whilst particularly useful as a companion to the sixth edition of Giddens's sociology the reader is designed for use independently or alongside other textbooks

sociology a brief but critical introduction offers a lively discursive and jargon free introduction to sociology accessible to the lay reader as well as to the student it incorporates discussion of recent developments in both social theory and empirical social research developments to which Giddens has directly contributed

social life is in a constant process of change and sociology cannot afford to stand still sociology today is theoretically diverse covers a huge range of subjects and draws on a broad array of research methods central to this endeavour is the use of core concepts and ideas which allow sociologists to make sense of societies though our understanding of these concepts is constantly evolving and changing this clear and jargon free book introduces a careful selection of essential concepts that have helped to shape sociology and others that continue to do so going beyond brief dictionary style definitions Anthony Giddens and Philip W Sutton provide an extended discussion of each concept which sets it into historical and theoretical context explores its main meanings in use introduces some relevant criticisms and points readers to its ongoing development in contemporary research and theorizing organized in ten thematic sections the book offers a portrait of sociology through its essential concepts ranging from capitalism identity and deviance to citizenship the environment and intersectionality it will be essential reading for all those new to sociology as well as those seeking a reliable route map for a rapidly changing world

is there a future for sociology to many sociology seems to have lost its way born of the ideas of auguste comte in the nineteenth century sociology established itself as the science of modernity linked to a progressive view of history yet today the idea of progress has more or less collapsed with its demise some say sociological thought has moved to the margins of contemporary intellectual culture in this book the author challenges such an interpretation showing that sociology continues to hold a central position within the social sciences looking both to the past of sociology and the diversity of intellectual trends found in the present day giddens explores many aspects of the sociological heritage comte durkheim parsons marshall and habermas are among the figures covered giddens also connects sociological work directly to current political issues and places the discipline of sociology in the context of broad questions of social and political theory this book will be of interest to undergraduates and professionals in the fields of sociology anthropology and political science

anthony giddens has been in the forefront of developments in social theory for the past decade in the constitution of society he outlines the distinctive position he has evolved during that period and offers a full statement of a major new perspective in social thought a synthesis and elaboration of ideas touched on in previous works but described here for the first time in an integrated and comprehensive form a particular feature is giddens's concern to connect abstract problems of theory to an interpretation of the nature of empirical method in the social sciences in presenting his own ideas giddens mounts a critical attack on some of the more orthodox sociological views the constitution of society is an invaluable reference book for all those concerned with the basic issues in contemporary social theory

this is a new and revised edition of a book which has already established itself as a basic text in social theory the first section of the work provides a concise critical analysis of some leading schools of thought in social philosophy giving particular attention to phenomenology ethnomethodology and wittgensteinian thought giddens concentrates primarily upon the implications of these various perspectives for an account of human action and its intelligibility an action approach on its own however will not do in human social life action and structure presuppose one another the author therefore moves on to provide a series of concepts relevant to understanding the production and reproduction of society the book concludes with a succinct statement of some new rules of sociological method representing the first and most trenchant exposition of the principles of structuration theory this edition also contains a substantial new introduction in which giddens replies to some of the more persistent criticisms made of the original version and also addresses some important issues originally discussed only in a cursory way

now available in a discounted bundle buy the exciting new sixth edition of anthony giddens's sociology alongside the specially tailored and revised selection of key sociological works in sociology introductory readings the main textbook provides an authoritative overview of recent global developments and new ideas in sociology

classic debates are also given careful coverage with even the most complex ideas explained in an engaging way the reader offers a stimulating and wide ranging set of readings to enable students to get to grips with original sociological thinking a strong emphasis has been placed on creating a productive mixture of classic and contemporary readings which is highly readable and lively yet remains challenging together the two books provide an engaging and thorough introduction to the full scope of sociology a comprehensive resource for all students for additional support and material please visit the accompanying website at [politybooks.com/giddens6](http://politybooks.com/giddens6)

anthony giddens is one of the world s most prominent and prolific sociologists and yet he is also a difficult study for the beginning student of sociology this is the first introduction to the work of giddens including the major part of his sociological and social theoretical project the author traces giddens development from the late sixties to the nineties in a straightforward readable style covering all parts of giddens s sociology in a well arranged summary also featured is a lengthy interview with giddens by the author and the most comprehensive giddens bibliography to date

anthony giddens is one of the most famous and influential sociologists of recent decades largely credited with the concept of the third way he continues to be a key advisor to tony blair and is generally presented as an exponent of liberalism and socialism this book provides a controversial introduction to giddens work covering the wide range of his writing from theory to self reflexivity modernity and politics placing them all within the illuminating framework of a historical context giddens writing has always embodied a political and ethical position one that has changed considerably over the years and is best understood through the social context in which it was written his work in the 1970s attempted to marry liberalism and socialism but following the collapse of communism in the 1990 east european revolutions his world view became liberal rather than socialist and his later work on reflexivity and the third way embodies this loyal explores how this world view accounts for many tensions and failures in giddens theory and that overall his work is fundamentally flawed

anthony giddens has made original contributions to the fields of social theory political sociology the sociology of stratifications suicide this set includes carefully selected secondary articles which bring out the scope of his work

this book is built upon a series of critical encounters with major figures in classical and present day social and political thought the volume offers not only a challenging critique of major traditions of social and political analysis but unique insights into the ideas which anthony giddens had developed over the past two decades

one of the most creative among the younger generation of critical social theorists giddens stands alone in his concern for the classical tradition on sociology but he also

makes brilliant use of the latest philosophical and theoretical work of several contemporary schools and disciplines a very important book for all of social science jeffrey c alexander

anthony giddens is widely recognized as one of the most important sociologists of the post war period this is the first full length work to examine giddens social theory it guides the reader through giddens early attempt to overcome the duality of structure and agency he saw this duality as a major failing of social theories of modernity his attempt to resolve the problem can be regarded as the key to the development of his landmark structuration theory the book is the most complete and thorough assessment of giddens work currently available it incorporates insights from many different perspectives into his theory of structuration his work on the formation of cultural identities and the fate of the nation state this fa

anthony giddens has been described as the most important english social philosopher of our time over twenty five years and even more books he has established himself as the most widely read and widely cited social theorist of his generation his ideas have profoundly influenced the writing and teaching of sociology and social theory throughout the english speaking world in recent years his writing has become much more explicitly political and in 1996 he took up his high profile appointment as director of the london school of economics and political science it is in this new position and with these new political ideas that he has been described as the key intellectual figure of new labour in britain following the astonishing success of labour in the 1997 general election his ideas have been the focus of intense interest in this series of extended interviews with chris pierson giddens lays out with customary clarity and directness the principal themes in the development of his social theory and the distinctive political agenda which he recommends this volume will be of great interest to second and third year students in sociology and social theory politics and political theory as well as to the general reader

an introduction to the sociology of religion provides an overview of sociological theories of contemporary religious life some chapters are organized according to topic others offer brief presentations of classical and contemporary sociologists from karl marx to zygmunt bauman and their perspectives on social life including religion throughout the book illustrations and examples are taken from several religious traditions

an introduction to the work of anthony giddens and a critical discussion of his ideas it sets out the background to and sources for giddens development of structuration theory and describes the main features of his theory
