the relevance of language acquisition to the day to day concerns of teaching and learning languages

the eleven chapters of vocabulary in a second language are written by the world s leading researchers in the field of vocabulary studies in second language acquisition each chapter presents experimental research leading to new conclusions about and insights into the selection the learning and teaching or the testing of vocabulary knowledge in foreign languages this book is intended as an up to date overview of the important domain of the lexicon for researchers in the field of second language acquisition teacher trainers and professional teachers of second or foreign languages

spolsky here examines the conditions under which languages are learned and how learning related to teaching his theory set out in the form of a preference model emphasizes the need to be precise and clear on the nature of the goals and outcomes of learning and to recognize the complexity of the concept of knowing a second language

on the monitor theory of adult second language acquisition

the present volume examines the relationship between second language practice and what is known about the process of second language acquisition summarising the current state of second language acquisition theory drawing general conclusions about its application to methods and materials and describing what characteristics effective materials should have the author concludes that a solution to language teaching lies not so much in expensive equipment exotic new methods or sophisticated language analysis but rather in the full utilisation of the most important resources native speakers of the language in real communication

this book is a thorough revision of the highly successful text first published in 1994 the authors retain the multidisciplinary approach that presents research from linguistics sociology psychology and education in a format designed for use in an introductory course for undergraduate or graduate students the research is updated throughout and there are new sections and chapters in this second

edition as well new chapters cover child language acquisition first and second universal grammar and instructed language learning new sections address issues such as what data analysis doesn t show replication of research findings interlanguage transfer multilingual acquisition and transfer the aspect hypothesis general nativism connectionist approaches and implicit explicit knowledge major updates include nonlanguage influences and the lexicon the workbook second language learning data analysis second edition makes an ideal accompaniment to the text

this edited volume brings together perspectives that find mutual kinship in a view of language as an embodied semiotic symbolic tool used for communicative and interactional purposes and an understanding of language use as the preeminent condition for language learning perspectives that we conjoin under the umbrella term of usage based perspectives

the book examines which linguistic properties are hard and which are easy to acquire when learning a second language the bottleneck hypothesis is proposed which states that inflectional morphemes and their features present the most formidable challenge to learners while syntax and phrasal semantics pose leas difficulty the numerous empirical studies reviewed in the book indicate that there is no critical period for acquisition of meaning the findings suggest that an enhanced focus on practicing grammar in language classrooms will be beneficial to learners book jacket

the handbook of second language acquisition presents an integrated discussion of key and sometimes controversial issues in second language acquisition research discusses the biological and cognitive underpinnings of sla mechanisms processes and constraints on sla the level of ultimate attainment research methods and the status of sla as a cognitive science includes contributions from twenty seven of the world s leading scholars provides an invaluable resource for all students and scholars of human cognition including those in linguistics psychology applied linguistics esl foreign languages and cognitive science

this book provides an alternative to the grammar debate in second language acquisition theory and teaching accepting that language acquisition is at least partially input dependent the author asks how grammatical form is processed in the input by second language learners and is it possible to assist this in ways that help the learner to create richer grammatical intake he answers these

questions and explains why traditional paradigms are not psycholinguistically motivated drawing on research from both first and second language acquisition he outlines a model for input processing in second language acquisition that helps to account for how learners construct grammatical systems he then uses this model to motivate processing instruction a type of grammar instruction in which learners are engaged in making form meaning connections during particular input activities

this extremely up to date book speech production and second language acquisition is the first volume in the exciting new series cognitive science and second language acquisition this new volume provides a thorough overview of the field and proposes a new integrative model of how l2 speech is produced the study of speech production is its own subfield within cognitive science one of the aims of this new book as is true of the series is to make cognitive science theory accessible to second language acquisition speech production and second language acquisition examines how research on second language and bilingual speech production can be grounded in l1 research conducted in cognitive science and in psycholinguistics highlighted is a coherent and straightforward introduction to the bilingual lexicon and its role in spoken language performance like the rest of the series speech production and second language acquisition is tutorial in style intended as a supplementary textbook for undergraduates and graduate students in programs of cognitive science second language acquisition applied linguistics and language pedagogy

this book examines different theoretical perspectives on the role that interaction plays in second language acquisition the principal perspectives are those afforded by the interaction hypothesis socio cultural theory and the levels of processing model interaction is therefore defined broadly it is seen as involving both intermental and intramental activity the theoretical perspectives are explored empirically in a series of studies which investigate the relationship between aspects of interaction and second language acquisition a number of these studies consider the effects of interaction on the acquisition of vocabulary word meanings by both adult and child l2 learners in addition the effects of language aptitude on input processing are considered further studies consider the contribution that interaction makes to the acquisition of grammatical knowledge these studies provide clear evidence that social and intermental interaction are major forces in the acquisition of an l2 finally the book considers a number of pedagogic specifications in particular the importance of discourse control as a means of learners obtaining the quality of interaction likely to foster acquisition is discussed

specifically targeted towards the needs of a second language research audience second language research methodology and design addresses basic issues related to research design providing step by step instructions for how to carry out studies this up to date text includes chapters that cover identifying research problems and questions selecting elicitation measures dealing with ethical issues related to data gathering validity and reliability in research research in second and foreign language classroom contexts data description and coding and data analysis also included is a chapter on the much needed and rarely addressed topic of writing up sla research giving concrete suggestions about preparing for publication principles of both qualitative and quantitative research are discussed in the context of design issues throughout the book examples from applied linguistics second language acquisition and tesol are provided helpful discussion and data based skill building exercises at the end of each chapter promote better understanding of the principles discussed a glossary outlines the key terms in second language research second language research methodology and design is an ideal textbook for introductory and advanced classes in second language research methods as well as classes in related areas for example tesol research methods

this volume offers an introduction to the field of second language acquisition with a particular focus on second language spanish it connects key issues in the acquisition of spanish as a second language to theoretical and empirical issues in the field of second language acquisition more generally by exemplifying central concepts in second language acquisition through the exploration of the most widely researched structures and most recent developments in the field of second language spanish it is written for a non specialist audience making it suitable for advanced undergraduate and graduate courses and readers while its treatment of recent empirical developments also makes it of interest to researchers in second language spanish as well as allied fields
