a valuable primer on foreign policy a primer that concerned citizens of all political persuasions not to mention the president and his advisers could benefit from reading michiko kakutani the new york times an examination of a world increasingly defined by disorder and a united states unable to shape the world in its image from the president of the council on foreign relations things fall apart the center cannot hold the rules policies and institutions that have guided the world since world war ii have largely run their course respect for sovereignty alone cannot uphold order in an age defined by global challenges from terrorism and the spread of nuclear weapons to climate change and cyberspace meanwhile great power rivalry is returning weak states pose problems just as confounding as strong ones the united states remains the world's strongest country but american foreign policy has at times made matters worse both by what the u.s. has done and by what it has failed to do the middle east is in chaos asia is threatened by china's rise and a reckless north korea and europe for decades the world's most stable region is now anything but as richard haass explains the election of donald trump and the unexpected vote for brexit signals that many in modern democracies reject important aspects of globalization including borders open to trade and immigrants in a world in disarray haass argues for an updated global operating system call it world order 2.0 that reflects the reality that power is widely distributed and that borders count for less one critical element of this adjustment will be adopting a new approach to sovereignty one that embraces its obligations and responsibilities as well as its rights and protections haass also details how the u.s. should act towards china and russia as well as in asia europe and the middle east he suggests too what the country should do to address its dysfunctional politics mounting debt and the lack of agreement on the nature of its relationship with the world a world in disarray is a wise examination one rich in history of the current world along with how we got here and what needs doing haass shows that the world cannot have stability or prosperity without the united states but that the united states cannot be a force for global stability and prosperity without its politicians and citizens reaching a new understanding

an interview with noam chomsky is a bit like throwing batting practice to babe ruth what you lob in he will hammer out this conversational interview by michael albert who has been close to chomsky for roughly half a century and talked with him many hundreds of times spans a wide range of topics including journalism science religion the racist foundations of american society education as indoctrination issues of class and resistance colonialism imperialism and much more the thread through it all is that every topic and the list above takes us just about halfway through this book reveals how social systems work what their impact on humanity is and how they are treated by the elite mainstream intellectuals and leftists it gets personal theoretical and observational the lessons are relevant to all times so far and pretty much all places and chomsky s logical scalpel with moral guidance is relentless

this book investigates the geopolitisation of foreign aid in recent years against a background of global overarching crises such as climate change conflict covid 19 economic crisis energy shortages and migration foreign aid has historically been understood as assisting both with the development objectives of the recipients and with the trade and geopolitical interests of the donors in the first decades of the 21st century however this balance has been shifted by a series of complex global challenges this book argues that donors have now moved towards framing aid as a geopolitical instrument wherein aid can be given or withheld based on power or political intent thus imposing the donor s specific values and norms this book provides an in depth analysis of this weaponisation of foreign aid within a framework of global disruption and ultimately concludes that the world is at a tipping point towards a new socio political world order asking important questions about the power dynamics at play within the aid sector this book will be an important read for researchers across development studies political science international relations and global affairs
