this anthology puts the suppositions and approaches of existential phenomenology to a wide variety of uses in many fields psychological aesthetic anthropological psycho sexual and sociological among others thus the breadth and diversity inherent in this humanistic movement both in doctrine and in use are more than amply demonstrated

while earlier research considered Simone de Beauvoir in the perspectives of existentialism or feminism this work is the first to emphasize her reflective and descriptive approach and the full range of issues she addresses there are valuable chapters and sections that are historical and or comparative but most of the contents of this work critically examine Beauvoir's views on old age whereon she is the first phenomenologist to work biology gender ethics ethnicity where she is among the first and politics again among the first besides their systematic as well as historical significance these chapters show her philosophy as on a par with those of Merleau-Ponty and Jean-Paul Sartre in quality richness and distinctiveness of problematics and the penetration of her insight into collective as well as individual human life within the socio-historical world

when I began to study psychology a half century ago it was defined as the study of behavior and experience by the time I completed my doctorate shortly after the end of World War II the last two words were fading rapidly in one of my first graduate classes a course in statistics the professor announced on the first day whatever exists exists in some number we dutifully wrote that into our notes

and did not pause to recognize that thereby all that makes life meaningful was being consigned to oblivion this bland restructuring perhaps more accurately destruction of the world was typical of its time 1940 the influence of a narrow scientific attitude was already spreading throughout the learned disciplines in the next two decades it would invade and tyrannize the social sciences education and even philosophy to be sure quantification is a powerful tool selectively employed but too often it has been made into an executioner's axe to deny actuality to all that does not yield to its procrustean demands

existentialism has long been considered an isolated philosophy whose antecedents and origins extend no farther back in time than its own creation it has been said of existentialism that its main proponents Sartre Kierkegaard and Nietzsche agreed in only one thing namely that they were not existentialists the existentialist believes himself uniquely individual an autonomous agent independent of his environment and able to arrive at his own private realization of the truth as the movement grew and gained adherents existentialism has been called the philosophy of the modern man it became apparent that some basic assumptions did in fact have a grounding in earlier and more tightly structured philosophical systems in particular phenomenology which as the name implies is the investigation of experience in fact phenomenology and existentialism are intrinsically related but undergraduate and popular presentations portray them as distinctly separate movements while hinting at their relationship Richard Zaner and Don Ihde have set out to correct this distortion in terms of carefully selected readings and enlightening introductory essays they demonstrate just why phenomenology took the existential turn they outline the main directions of development and then focus on the ways in which phenomenological description dominates existential writing in their introductory essays they also seek to establish the continuity of phenomenology and existentialism with the history of western philosophy and the ways in which Husserl drew upon Augustine Aquinas Descartes Locke Hume and Kant publisher

structural existential analysis sea is a qualitative research method which uses an existential phenomenological framework that has been developed through decades of therapeutic and research practice this book describes the method of sea and how to apply it to qualitative research the book starts with a detailed description of the existential underpinnings of sea drawing on a range of phenomenologists to demonstrate the need for a phenomenology of interiority the method is described in full explaining the use of a specific form of self reflection soar and of the existential research dialogue the second part focuses on the analysis of the research data a full description is given of each of the filters in terms of their origin their meaning and of the specific ways in which they are applied the text is enlivened by ample examples demonstrating how the filters can be used and how the analysis can draw out different aspects of human experience throughout the process the book will be essential reading for all those involved in education training or research in existential therapies clinical psychology and counselling psychology

in a refreshingly novel approach to the writings of gloria e anzald□a 1942 2004 andrea j pitts addresses issues relevant to contemporary debates within feminist theory and critical race studies pitts explores how anzald□a addressed directly and indirectly a number of complicated problems regarding agency in her writings including questions of disability justice trans theorizing indigenous sovereignty and indentarian politics anzald□a s conception of what pitts describes as multiplicitous agency serves as a key conceptual link between these questions in her work including how discussions of agency surfaced in anzald□a s late writings of the 1990s and early 2000s not shying away from anzald□a s own complex and sometimes problematic framings of disability mestizaje and indigeneity pitts draws from several strands of contemporary chicanx latinx and african american philosophy to examine how anzald□a builds pathways toward networks of solidarity and communities of resistance

after describing man as existence and its implications this book explores the meaning of knowledge and truth in terms of existential thinking next it develops the concrete notion of human freedom implied in existence and man s fundamental intersubjective attitudes of hatred indifference love and justice in the final chapter it raises the problem of man s metaphysical dimension and the existence of

god

drawing on the philosophy of existentialism this thought provoking research agenda questions and encourages deeper ethical thinking about organizational practices during this time of existential crisis rather than relying on prescriptive normative ethical theories it advocates for ethical concerns to be addressed through intersubjective encounters

eric p levy s book investigates the mentality or attitude of cognitive apprehension expressed in beckettian texts primary areas of concern include how the beckettian attitude began what concepts it invents or transforms to sustain its mode of thought how the mentality wards off factors which would refute or heal it and most paradoxical of all why this mentality ultimately reduces the mind to an estranged source of thought continuously repudiated by its own awareness the study uncovers the strategies by which experience is evacuated of all content but that consistent with the attitude registering it

this collection focuses on the existential predicaments and choices that underpin current debates and developments in the governance of crime and criminal justice and argues for the relevance of existentialist thought for enhancing a critical and philosophically inspired criminological imagination

believing as albert einstein said that the eternal mystery of the world is its comprehensibility existential phenomenologists succeed where other critics fail□ □they present a unified critical theory that incorporates all of faulkner□ □s characters

phenomenology in a pluralistic context contains papers selected from three years of meetings of the society for phenomenology and existential philosophy spep the essays are representative of the most current thinking among north american philosophers who have been influenced by the phenomenological movement a majority of the selections reveals a considerable mutual influence between phenomenology and other philosophical currents special emphasis is given to issues in social and political theory the philosophy of

medicine of art of language and of religion phenomenology s relationship to kantianism and to marxism and the figures of merleau ponty sartre and heidegger

professor grossman s introduction to the revolutionary work of husserl heidegger and sartre studies the ideas of their predecessors too explaining in detail descartes s conception of the mind brentano s theory of intentionality and kierkegaard s emphasis on dread while tracing the debate over existence and essence as far back as aquinas and aristotle for a full understanding of the existentialists and phenomenologists we must also understand the problems that they were trying to solve this book originally published in 1984 presents clearly how the main concerns of phenomenology and existentialism grew out of tradition

the lived experience of forgiveness phenomenological and psychological perspectives remedies the absence of systematic research on the experience of forgiveness by bringing together the work of five psychologists one philosopher and one theologian the contributors have researched various aspects of forgiveness through interviews and field work allowing for a clarification of this topic and providing a basis for evaluating the often contradictory assertions of the existing literature edited by steen halling this volume demonstrates the value of careful study of human experience by examining forgiveness in its various manifestations within a phenomenological framework that strives to set aside and question presuppositions whether they be religious philosophical or psychological and look at phenomena with fresh eyes this approach enables a more creative and productive dialogue among the disciplines of psychology theology and philosophy with experience as a common reference point and thereby leads to a deeper understanding of the phenomenon of forgiveness

what are the best ways to do research on the psychology of women and gender within feminist psychology there is a great deal of methodological creativity and diversity this volume highlights how familiar methods such as focus groups can be brought to bear on feminist issues it demonstrates less common methods such as q sort phenomenological analysis concept mapping and discourse
