this title was first published in 2003 france and the algerian conflict is a study of the french response to political upheavals in algeria since 1988 in a very short period of time algeria has lived through a fast track democratization process a coup d'état and an upsurge of violence bringing the country to the brink of civil war france s policy towards its ex colony during this period of political and social hardship has been very tortuous french leaders from the left or the right have shifted back and forth from supporting conciliation in algeria to backing eradication this book retraces the main events that occurred in algeria from 1988 to 1995 and analyses the successive policy shifts of the french government both in terms of political discourse and policy means in particular it seeks answers to the issue of the french opposition to the algerian militant islamic salvation front fis

this book is the outcome of a nato advanced research workshop on the eastern mediterranean as a laboratory basin for the assessment of contrasting ecosystems that was held in kiev ukraine march 23 27 1998 the scientific rationale of the workshop can be summarized as follows the eastern mediterranean is the most nutrient impoverished and oligotrophic large water body known there is a well defined eastward trend in nutrient ratios over the entire mediterranean that starts at the gibraltar straits and through the western basin proceeds to the ionian and levantine seas supply of nutrients to the entire mediterranean is limited by inputs from the north atlantic and various river systems along the sea the unique

feature of the mediterranean is the presence of an eastward longitudinal trend in available nitrate phosphate ratios this apparently induces a west to east variation in the structure of the pelagic food web and trophic interactions in this context the mediterranean and in particular its eastern basin provides probably a unique platform to explore the hypotheses related to the suggested phosphate limitation on production and to the shift between microbial and classical modes of operation of the photic food web the major exception of the overall oligotrophic nature of the eastern mediterranean is the highly eutrophic system of the northern adriatic sea here during the last two decades the discharges of the northern rivers especially of the po together with municipal sewage have led to a very marked increase of nutrients and subsequent imponent eutrophication events

from yellowstone to the great smoky mountains america's national parks are sprawling tracts of serenity most of them carved out of public land for recreation and preservation around the turn of the last century america has changed dramatically since then and so has its conceptions of what parkland ought to be in this book one of our premier environmental historians looks at the new phenomenon of urban parks focusing on san francisco's golden gate national recreation area as a prototype for the twenty first century cobbled together from public and private lands in a politically charged arena the ggnra represents a new direction for parks as it highlights the long standing tension within the national park service between preservation and recreation long a center of conservation the bay area was well positioned for such an innovative concept writing with insight and wit rothman reveals the many complex challenges that local leaders politicians and the nps faced as they attempted to administer sites in this area he tells how representative phillip burton guided a comprehensive bill through congress to establish the park and how he and others expanded the acreage of the ggnra redefined its mission to the public forged an identity for interconnected parks and struggled against formidable odds to obtain the san francisco presidio and convert it into a national park engagingly written the new urban park offers a balanced examination of grassroots politics and its effect on municipal state and federal policy while most national parks dominate the economies of their regions ggnra was from the start tied to the multifaceted needs of its public and political constituents including neighborhood ethnic and labor interests as well as the usual supporters from the conservation movement as a national recreation area ggnra helped redefine that category in the public mind by the dawn of the new century it had already become one of the premier national park areas in terms of visitation now as public lands become increasingly scarce ggnra may well represent the future of national parks in america rothman shows that this model works and his book will be an invaluable resource for planning tomorrow's parks

where did the era of divided government come from what sustains split partisan control of the institutions of american national government year after year why can it shift so easily from democratic or republican presidencies coupled with republican or democratic congresses how can the vast array of issues and personalities that have surfaced in american politics over the last forty years fit so neatly within indeed reinforce the sustaining political pattern of our time these big questions constitute the puzzle of modern american politics the old answer a majority and a minority party plus dominant and recessive public issues will not work in the era of divided government byron shafer a political scientist who is regarded as one of the most comprehensive and original thinkers on

american politics provides a convincing new answer that has three major elements these elements in combination not divided government as a catch phrase are the real story of politics in our time the first element is comprised of two great sets of public preferences that manifest themselves at the ballot box as two majorities the old cluster of economic and welfare issues has not so much been displaced as simply joined by a second cluster of cultural and national concerns the second element can be seen in the behavior of political parties and party activists whose own preferences don't match those of the general public that public remains reliably left of the active republican party on economic and welfare issues and reliably right of the active democratic party on cultural and national concerns the third crucial element is found in an institutional arrangement the distinctively american matrix of governmental institutions which converts those first two elements into a framework for policymaking year in and year out in the first half of the book shafer examines how dominant features of the reagan first bush clinton and second bush administrations reflect the interplay of these three elements recent policy conflicts and institutional combatants in shafer's analysis illuminate this new pattern of american politics in the second half he ranges across time and nations to put these modern elements and their composite pattern into a much larger historical and institutional framework in this light modern american politics appears not so much as new and different but as a distinctive recombination of familiar elements of a political style a political process and a political conflict that has been running for a much much longer time

few american social programs have been more unpopular controversial or costly than aid to families with dependent children afdc its budget now in the tens of billions of dollars has become a prominent target for welfare reformers and outraged citizens indeed if public opinion ruled afdc would be discarded entirely and replaced with employment yet it persists steven teles's provocative study reveals why and tells us what we should do about it teles argues that over the last thirty years political debate on afdc has been dominated by an impasse created by what he calls ideological dissensus an enduring conflict between opposing cultural elites that have largely disregarded public opinion thus he contends one must examine the origins and persistence of elite conflict in order to fully comprehend afdc's immunity to the reform it truly needs the kind that unites the elements of order equality and individualism central to the american creed one of the first studies to analyze afdc from a new democrat position whose welfare sheds new light on the controversial role of the courts in afdc the rise of welfare waivers in the mid 1980s the failure of the clinton welfare plan and the victory of block granting over policy oriented welfare reform teles however goes beyond mere critical analysis to advocate specific

approaches to reform his thoughtful call for compromise built around the centrality of work individual responsibility and opportunity offers a means for dissolving dissensus and genuine hope for changing an outdated and ineffectual welfare system based on interviews with participants in the afdc policymaking process as well as an unparalleled synthesis of the voluminous afdc literature whose welfare will appeal to a wide array of welfare scholars policymakers and citizens eager to better understand the tumultuous history of this problematic program and how it might fare in the wake of the fall elections

the supreme court's controversial decision in *Oregon v. Smith* sharply departed from previous expansive readings of the first amendment's religious freedom clause and ignited a firestorm of protest from legal scholars religious groups legislators and native americans a major event in native american history the case attracted widespread support for the indian cause from a diverse array of religious groups eager to protect their own religious freedom and led to an intense tug of war between the court and congress carolyn long provides the first book length analysis of *Smith* and shows why it continues to resonate so deeply in the american psyche

when the major powers sent troops to the korean peninsula in june of 1950 it supposedly marked the start of one of the last century's bloodiest conflicts in volume 1 allan millett however reveals that the korean war actually began with partisan clashes two years earlier and had roots in the political history of korea under japanese rule 1910-1945 in volume 2 he shifts his focus to the twelve month period from north korea's invasion of south korea on june 25 1950 through the end of june 1951 the most active phase of the internationalized korean war

through much of the 1990s a newly hatched snake wreaked political havoc in the south when north carolina gained a seat in congress following the 1990 census it sought to rectify a long standing failure to represent african american voters by creating under federal pressure two majority minority voting districts one of these snakes along interstate 85 for nearly two hundred miles not much wider than the road itself in some places and was ridiculed by many as one of the least compact legislative districts ever proposed from 1993 to 2001 three intertwined cases went before the supreme court that decided how far a state could go in establishing voting districts along racial lines noted supreme court biographer tinsley yarbrough examines these closely linked landmark cases to show how the court addressed the constitutionality of redistricting within the volatile contexts of civil rights and partisan politics a suit was first filed by duke university law professor robinson everett a liberal who loathed

discrimination but considered racially motivated redistricting a clear violation of the fourteenth amendment's equal protection clause yarbrough tells how everett enlisted associates as plaintiffs and went on to win two supreme court victories in shaw v reno 1993 and shaw v hunt 1996 both by 5 4 decisions following the creation of another flawed redistricting plan he rounded up a new set of plaintiffs to take the battle back to the supreme court but this time in easley v cromartie on the swing vote of justice sandra day o connor the 5 4 vote went against him yarbrough shows the significant impact these cases have had on election law and the fascinating interplay of law politics and human conflict that the dispute generated drawing heavily on court records and on interviews with attorneys on both sides of the litigation he relates a complex and intriguing tale about these protracted struggles his cogent and balanced analysis considers whether the state legislature was wrong in using race as a measure for establishing the new district or whether it was simply engaging in the time honored practice of gerrymandering to ensure political balance race and redistricting spotlights efforts to racially engineer voting districts in an effort to achieve fair representation by examining one state's efforts to confront such dilemmas it helps readers better understand future disputes over race and politics as well as the ongoing debates over our color blind constitution

when the big ball drops on new year's eve thousands are there to witness that great glittering sight while millions more watch on national television times square may be the cultural hub of america the crossroads of the world but its lights have not always shone as brightly as they do now once a glamorous theater district times square and 42nd street had degenerated into a neighborhood known for the winos and sex shops of midnight cowboy until new york's business and arts communities stepped in these advocates of urban revitalization exploited cultural and historic preservation arguments to transform a low income entertainment district into a disney fied tourist mecca where ratso rizzo once kicked cars and hookers plied their trade mickey mouse now greets visitors from atop a disney superstore surrounded by rising office towers theaters and theme restaurants all thanks to huge tax subsidies and government support alexander reichl tells the fascinating story of how cultural politics and economic greed transformed the city's physical and social environment with an ongoing multibillion dollar redevelopment program changing the district from a symbol of urban decline to one of urban renaissance he explains the political significance of the historic preservation and arts related approach to urban revitalization showing how it was used to appeal to the upscale values of middle class new yorkers often hostile to urban renewal he also examines the role of the walt disney company in

the project and demonstrates its power to redefine a premier public space in telling the story of times square reichl reveals much about politics and power at the city level and their relationship to the development of urban space he frames his lively narrative with an illuminating account of how historic preservation initiatives at all government levels have displaced large scale federal urban renewal programs as the dominant approach to urban development and he shows the importance of political discourse and cultural politics in mobilizing public support for urban redevelopment now that it has been reconfigured for the 21st century times square provides a rich and multifaceted case for exploring the latest trends in urban renewal yet reichl suggests much that has happened here is regrettable the ousting of low income citizens to serve commercial interests the loss of a culturally diverse entertainment district and the failure to address persistent class and race based segregation in a central urban area by getting to the heart of the great white way reconstructing times square provides an important look at urban renewal and politics in a changing america
