this book explores the growing body of multimodal literary texts books that creatively experiment with the potential of design to represent narrative content examining five north and central american novels from the first two decades of the twenty first century this study draws attention to texts that combine verbal text writing with non verbal elements photographic images varied typography maps color etc as integral parts of their narratives their experimentation both reconfigures the potential for print based and born digital fiction in the future and holds a mirror to past practices of design and typography that were rendered invisible or which received limited attention by authors publishers and readers by placing the five case studies and related texts within a broader history of experimentation in literature this book demonstrates how multimodal novels have

changed the conceptualization of narrative content in literary texts and ushered in a new era for fiction

mark z danielewski is routinely hailed as the most exciting author in contemporary american literature and he is celebrated by critics and fans alike revolutionary leaves collects essays that have come out of the first academic conference on danielewski s fiction that took place in munich in 2011 which brought together younger and established scholars to discuss his works from a variety of perspectives addressing his major works house of leaves 2000 and only revolutions 2006 the texts are as multifaceted as the novels they analyze and they incorporate ideas of post structuralism modernism post and post postmodernism philosophy marxism reader response criticism mathematics and physics politics media studies science fiction gothic horror poetic theory history architecture mythology and more contributors nathalie aghoro ridvan askin hanjo berressem aleksandra bida brianne bilsky joe bray alison gibbons julius greve sebastian huber sascha pöhlmann and hans peter söder

simply put there is absolutely nothing on the market with the range of ambition of this strikingly eclectic collection of essays not only is it impossible to imagine a more comprehensive view of the subject most readers even specialists in the subject will find that there are elements of the gothic genre here of which they were previously unaware barry forshaw author of british gothic cinema and sex and film the palgrave handbook of contemporary gothic is the most comprehensive compendium of analytic essays on the modern gothic now available covering the vast and highly significant period from 1918 to 2019 the gothic sensibility over 200 years old embraces its dark past whilst anticipating the future from demons and monsters to post apocalyptic fears and ecological fantasies gothic is thriving as never before in the arts and in popular culture this volume is made up of 62 comprehensive chapters with notes and extended bibliographies contributed by scholars from around the world the chapters are written not only for those engaged in academic research but also to be accessible to students and dedicated followers of the genre each chapter is packed with analysis of the gothic in both theory and practice as the genre has mutated and spread over the last hundred years starting in 1918 with the impact of film on the genre s development and moving through

its many and varied international incarnations each chapter chronicles the history of the gothic milieu from the movies to gaming platforms and internet memes television and theatre the volume also looks at how gothic intersects with fashion music and popular culture a multi layered multi ethnic even a trans gendered experience as we move into the twenty first century

have we moved beyond postmodernism did postmodernism lose its oppositional value when it became a cultural dominant while focusing on questions such as these the articles in this collection consider the possibility that the death of a certain version of postmodernism marks a renewed attempt to re negotiate and perhaps re embrace many of the cultural literary and theoretical assumptions that postmodernism seemly denied outright including contributions from some of the leading scholars in the field n katherine hayles john d caputo paul maltby jane flax among others this collection ultimately comes together to perform a certain work of mourning through their explorations of this current epistemological shift in narrative and theoretical production these articles work to get over postmodernism while simultaneously celebrating a certain postmodern inheritance an inheritance that can offer us important avenues to understanding and affecting contemporary culture and society
