los textos antiguos mencionan un culto rendido a una diosa madre prehistórica en los orígenes de la humanidad cuál habría sido su naturaleza exacta este ensayo ofrece una reconstrucción sin precedentes de las creencias de nuestros antepasados hace casi 40 000 años utilizando pruebas arqueológicas y apoyándose en la mitología comparada hace varios milenios un paradigma muy distinto gobernaba la mente humana no el miedo a la muerte sino el terror a quedar encadenado en el inevitable ciclo de la reencarnación en un mundo de hambruna y caos este libro revela los orígenes de un conocimiento olvidado el mito eminentemente antiguo de la luz de los orígenes

séculos após a queda do primeiro império galáctico o futuro da humanidade está nas mãos de golan trevize ex conselheiro banido da primeira fundação viajando pelo espaço a fim de provar suas suspeitas ele chega a gaia um planeta vivo onde todos os seres compartilham a mesma consciência e se vê diante de um profundo dilema decidir se essa mente coletiva é de fato o melhor destino para uma humanidade cheia de conflitos determinado a garantir que sua escolha é a correta trevize parte com janov pelorat e a intrigante júbilo em busca do mítico planeta terra cuja existência foi apagada dos registros galácticos mas nada poderia prepará los para os segredos desse mundo ancestral verdades que antecedem a história como eles a conheciam e que mudarão seu significado para sempre fundaÇÃO e terra é o quinto livro da série fundaÇÃO e encerra cronologicamente a obra máxima de isaac asimov um clássico de imaginação e escala extraordinárias que moldou a ficção científica como a conhecemos hoje

após anos de dúvidas de suposições e falatórios por fim se conhecerá a verdade antes daqueles dias aconteceram diversas disputas e guerras mas no fim se alcançava algo parecido com a paz ou ao menos os habitantes de gaia acreditavam nisso no entanto iludido aquele que acredita que a paz durará para sempre pois a natureza do ser humano é tentar dominar uns aos outros só alguém parecia não acreditar no que seus olhos viam naquele momento o que tanto desejou e almejou era a pessoa que segurava as páginas que com tanto afinco tinham procurado aquele no qual estavam destinados tais escritos certamente era seu autor que tinha desejado que essas páginas chegassem às mãos daquele que as segurava agora ao menos esse tinha sido o propósito de alguém adorado por muitos e odiado por tantos muito tempo esperaram as pessoas de gaia para saber a verdade ainda que fosse só uma parte dela e finalmente conseguiram pois nas mãos de indúrinel estava a história de uma vida e de muitas mortes uma história cheia de aventuras viagens batalhas amor e traições que prenderá o leitor desde a primeira página você se atreve a descobrir o segredo atrás das portas do conhecimento

imaginemos un hilo invisible que atraviesa milenios entrelazando los primeros mitos de la humanidad las intuiciones de los filósofos antiguos las revelaciones de los ascetas orientales los descubrimientos de la ciencia moderna y las audaces hipótesis de la física cuántica este libro invita al lector a seguirlo capítulo tras capítulo más allá de las fronteras del conocimiento consolidado para descubrir si existe una única conciencia que abarca todo lo que es incluidos nosotros mismos no es solo un viaje intelectual es una peregrinación entre preguntas eternas y respuestas provisionales entre números y poesía entre el laboratorio y el templo desde las escuelas griegas hasta silicon valley desde los sutras budistas hasta los paradigmas de la neurociencia desde las reflexiones de spinoza hasta las teorías de la información integrada cada página de este libro guiará al lector hacia una única idea abrumadora y si la conciencia no fuera un producto de la mente sino el tejido mismo del universo el lector se encontrará con hipótesis revolucionarias como un universo que piensa un campo cósmico que une todas las partículas o una realidad simulada de la que la mente podría ser tanto espectadora como programadora se explorarán experimentos audaces desde las medidas más sofisticadas de la conciencia hasta estudios aparentemente heréticos sobre la telepatía y la psicoquinesis hasta un nuevo horizonte en el que la inteligencia artificial podría llegar a ser consciente pero más allá de los datos y las teorías esta es una invitación a reflexionar sobre el significado profundo del ser qué cambia al saber que podríamos ser parte de una inteligencia infinita cómo transformaría esta conciencia nuestra ética nuestra relación con la tierra nuestra forma de vida con un enfoque que combina investigaciones puntuales una narración apasionante y una mirada capaz de atravesar disciplinas y culturas el libro se dirige tanto a los curiosos de la ciencia como a los buscadores espirituales es un puente entre mundos aparentemente lejanos construido para que dialoguen el lenguaje de la ecuación y el de la meditación abrir estas páginas significa aceptar un reto cuestionar la separación entre el yo y el universo entrar en resonancia con una verdad quizás tan antigua como el tiempo mismo y salir con una visión más amplia de lo que somos y de lo que podríamos llegar a ser por qué la chispa y el infinito este título nace de una clara referencia a la teología del místico alemán meister eckhart según la cual dentro de cada persona existe una chispa interior purísima e inmutable que no puede ser contaminada por el mundo exterior esta chispa es en realidad dios

mismo es el lugar donde la conciencia humana se encuentra con lo divino de manera inmediata relacionar la conciencia con esta chispa significa reconocer que la verdadera identidad del ser humano no es el ego sino una dimensión sin forma conectada con la fuente de toda existencia un itinerario entre los grandes pensadores las tradiciones sapienciales y las visiones místicas que han tratado de interpretar la conciencia como principio universal desde la filosofía griega hasta la sabiduría oriental pasando por las reflexiones contemporáneas sobre el significado de la existencia el texto investiga la posibilidad de que la conciencia sea el tejido mismo de la realidad una invitación a reconsiderar la relación entre uno mismo y el cosmos uniendo la intuición y la contemplación para abrir nuevas perspectivas sobre el ser y el destino humano un fascinante viaje a través de la filosofía la ciencia la espiritualidad y la física cuántica para explorar el misterio más profundo la conciencia desde las antiguas tradiciones sapienciales hasta los paradigmas neurocientíficos y las teorías más visionarias el libro entrelaza conocimientos e intuiciones para investigar si existe una conciencia universal que une todas las cosas una obra que estimula la mente y el corazón invitando al lector a redefinirse a sí mismo y su lugar en el universo una exploración rigurosa del misterio de la conciencia a través del prisma de la ciencia moderna desde las neurociencias hasta las teorías de la información integrada y las hipótesis cuánticas más audaces el libro atraviesa campos como la física la biología y la inteligencia artificial en busca de un modelo unificado un viaje entre experimentos datos y modelos matemáticos expresados en términos sencillos que pretende comprender si la conciencia es un fenómeno emergente o una propiedad fundamental del universo

les petites entreprises ont longtemps été négligées par les économistes les historiens et les pouvoirs publics leur contribution à l'histoire industrielle a été ignorée dans les processus de croissance et d'industrialisation depuis la fin du XVIII^e siècle après la seconde guerre mondiale l'hégémonie conceptuelle de la productivité et de l'efficacité du fordisme ont contribué à ériger la grande entreprise en modèle mais le ralentissement de l'économie dans les années 1970 a permis de reconsidérer le rôle de la petite entreprise

el presente libro se desarrolla siguiendo tres ejes uno teórico que da cuenta de la noción de la memoria colectiva desde los postulados de su inaugurador el francés maurice halbwachs tales como los marcos sociales y el papel del lenguaje en la configuración y mantenimiento de la memoria el segundo que presenta trabajos sobre distintos procesos sociales culturales y políticos en México y un tercero sobre Latinoamérica con capítulos dedicados a Perú Chile Colombia y uno a México donde se abordan problemáticas de violencia y memoria que se han presentado en el pasado y que van configurando el presente ese ha sido en parte el espíritu que ha impregnado la perspectiva de la memoria colectiva cómo el pasado no termina de pasar va delineando el presente y posibilita la discusión de otros futuros
