this book makes available for the first time in english translation four of the principal narrative sources for the history of the spanish kingdom of león castile during the 11th and 12th centuries the four chronicles were all composed in an unprecedented surge of spanish historical writing between c 1110 and c 1150 three of them focus primarily upon the activities of the kings of león castile as leaders of the reconquest of spain from the forces of islam and especially upon fernando i 1037-65 his son alfonso vi 1065-1109 and the latter's grandson alfonso vii 1126-57 the fourth chronicle is a biography of the hero rodrigo díaz better remembered as el cid and is the main source of information about his extraordinary career as a mercenary soldier who fought for christians and muslims alike

rodrigo díaz el cid legendary hero of spain champion of the spanish chivalry against the moslem centre of hundred tales of which some are manifestly incredible was he a man or a myth

rodrigo díaz the legendary warrior knight of eleventh century castile known as el cid is still honored in spain as a national hero for liberating the fatherland from the occupying moors yet as this book reveals there are many contradictions between eleventh century reality and the mythology that developed later by placing el cid in a fresh historical context fletcher shows us an adventurous soldier of fortune who was of a type one of a number of cids or bosses who flourished in eleventh century spain but the el cid of legend the national hero was unique in stature even in his lifetime before his death el cid was already celebrated in a poem posthumously he was immortalized in the great epic poema de mío cid when he died in valencia in 1099 he was ruler of an independent principality he had carved for himself in eastern spain rather than the zealous christian leader many believe him to have been rodrigo emerges in fletcher's study as a mercenary equally at home in the feudal kingdoms of northern spain and the exotic moorish lands of the south selling his martial skills to christian and muslim alike indeed his very title derives from the arabic word sayyid meaning lord or master and as there

was little if any sense of spanish nationhood in the eleventh century he can hardly be credited for uniting a medieval spanish nation this ground breaking inquiry into the life and times of el cid disentangles fact from myth to create a striking portrait of an extraordinary man clearly showing how and why legend transformed him into something he was not during his lifetime from publisher description

this study of el cid first published in english in 1934 is by the leading authority on the medieval history and literature of spain the cid occupies a unique position among national heroes others such as king arthur and roland are but shadowy figures in the historical record but el cid is very much better documented this book also paints a striking picture of eleventh century spain bringing out the importance of the country as a link between christian and muslim civilization
