buchmann analyses the work of uk german danish and swedish embassies in the usa and china on climate change in the late 2000s and early 2010s she

relates which coalitions and narratives embassies sought to develop to convince china and the united states that a more progressive climate policy was possible to achieve gains supporting an agreement under the unfccc this book shows that a key interpretation of climate diplomacy was selling trade europe selling technology solutions to solve climate change in this narrative europe has already done what needs to be done and outsourcing of production to china e g is ignored in the usa embassies entered coalitions with states faith groups and the military arguing that a more progressive climate policy was mandated by either god or security concerns state politicians including democrats often actually didn't implement any climate policies any gains were reversed through climate denial lobbying funded by corporations embassies did not address this

this book carries out a comparative study of the us response to popular uprisings in the middle east as an evaluation of president barack obama's foreign policy commitments in 2009 obama publicly pledged a new beginning in us muslim relations causing eager expectation of a clear shift in us foreign policy after the election of the 44th president of the united states however the achievement of such a shift was made particularly difficult by the existence of multiple and sometimes conflicting us interests in the region which influenced the obama administration's response to the popular uprisings in five muslim majority countries egypt bahrain yemen libya and syria after providing a detailed analysis of the traditional features of both us foreign policy rhetoric and practice this book turns its focus to the obama administration's response to the 2011 arab awakening to determine whether obama's foreign policy has indeed brought about a new beginning in us muslim relations

fast growing in population african immigrants in the united states have become a significant force to the point that the idea of a new african diaspora is now a reality this thriving community has opened new arenas of scholarly discourse on black atlantic history beyond the trans atlantic slave trade and its legacies this book investigates the complex dynamic forces that have shaped and continue to shape this new diaspora in eleven original essays the volume examines pertinent themes such as immigration integration dilemmas identity construction brain drain remittances expanding african religious space and how these dynamics impact and intersect with the african homeland with contributors from both sides of the atlantic that represent a diverse range of academic disciplines this book offers a broad perspective on emerging themes in contemporary african diasporan experiences the book will be of interest to scholars and students of african and african american studies sociology and history

global commons are domains that fall outside the direct jurisdiction of sovereign states the high seas air space and most recently man made cyberspace and thus should be usable by anyone these domains even if outside the direct responsibility and governance of sovereign entities are of crucial interest for the contemporary world order this book elaborates a practice based approach to the global commons and flows to examine critically the evolving geopolitical

strategy and vision of united states the study starts with the observation that the nature of us power is evolving increasingly towards the recognition that command over the flows of global interdependence is a central dimension of national power the study then highlights the emerging security and governance of these flows in this context the flows and the underlying global critical infrastructure are emerging as objects of high level strategic importance the book pays special attention to one of the least recognized but perhaps most fundamental challenges related to the global commons namely the conceptual and practical challenge of inter domain relationships between maritime air space and cyber flows that bring about not only opportunities but also new vulnerabilities these complexities cannot be understood through technological means alone but rather the issues need to be clarified by bringing in the human domain of security

shadowbosses reads like an organized crime novel but it s actually a true story of how labor unions are infiltrating our government and corrupting our political process this compelling and insightful book exposes how unions have organized federal state and local government employees without their consent and how government employee unions are now a threat to our workers freedoms our free and fair elections and even our american way of life and mallory factor reveals what s coming next how unions are targeting millions of americans maybe even you for forced unionization so that unions can collect billions more in forced dues and exert an even greater influence over american politics a chilling expose shadowbosses is also a call to citizen action against those who really hold power in america today

this book critically interrogates emerging interconnections between religion and biomedicine in africa in the era of antiretroviral treatment for aids highlighting the complex relationships between religious ideologies practices and organizations on the one hand and biomedical treatment programmes and the scientific languages and public health institutions that sustain them on the other this anthology charts largely uncovered terrain in the social science study of the aids epidemic spanning different regions of africa the authors offer unique access to issues at the interface of religion and medical humanitarianism and the manifold therapeutic traditions religious practices and moralities as they co evolve in situations of aids treatment this book also sheds new light on how religious spaces are formed in response to the dilemmas people face with the introduction of life prolonging treatment programmes
