despite its hard nosed emphasis on the demystifying realism of marxist leninist ideology the political imagery of the cuban revolution and the state that followed conjures up its own magical seductions and fantasies of power in this fascinating account kenneth routon shows how magic practices and political culture are entangled in cuba in unusual and intimate ways routon describes not only how the monumentality of the state arouses magical sensibilities and popular images of its hidden powers but he also explores the ways in which revolutionary officialdom has in recent years tacitly

the modern economy capitalism exposed volume 02 of the invisible debt trap by zayd iqbal haji author of zayd s rules ethical finance the halal economy we ve all been told the same bedtime story that if we study hard work harder invest wisely and save diligently we will eventually enjoy financial freedom but what if the very system we re playing in was designed from day one to ensure that we never win volume 02 of the invisible debt trap dares to ask the one question no banker no economist and certainly no central authority wants you to ask is your wealth actually yours or are you just a well fed slave in a system built to extract exploit and erase you this book isn t about budgeting tips or halal investment strategies it s a forensic audit of a global deception backed by the qur an the sunnah and 1400 years of buried economic

truth that the modern world desperately hopes you never discover zayd iqbal haji pulls no punches this volume is not written to comfort your illusions it s written to confront them at the heart of the expos® is the chilling realization that modern finance is not neutral not ethical and certainly not sustainable it is a calculated trap engineered around one forbidden concept that muslims have grown numb to riba the same riba that allah declared war against in surah al baqarah the same riba that silently feeds off every salary every mortgage every credit card and every halalified loan with a shariah board stamp of approval this book deconstructs how riba interest is not just immoral but structurally genocidal it shows how debt isn t a bug in the system it is the system and if you think you can participate in it without consequence this book exists to warn you otherwise the book doesn t just indict individuals it holds entire institutions and nations accountable from fractional reserve banking to inflation as engineered theft from central banks monopoly on currency creation to the psychological manipulation of consumers zayd connects the dots between everyday transactions and the unseen spiritual consequences they carry through detailed research and grounded islamic economics he explains how modern economic tools are designed to transfer wealth from the many to the few while the few build empires on your obedience the idea that your wealth is real because it appears as numbers in a digital wallet or a savings account is ruthlessly dismantled here those numbers are smoke what s real is what survives divine accountability what s terrifying is how little that may be but volume 02 goes even deeper in a searing chapter titled waqf a trust lost antilia was never yours zayd explores how the islamic institution of waqf once a powerful engine of socio economic justice has been reduced to irrelevance he contrasts this forgotten pillar of islamic finance with antilia a grotesque billion dollar skyscraper in mumbai named after a mythical paradise while millions suffer in debt one man built a monument to ego atop land that should have served the public zayd doesn t hold back he declares that waqf was never meant to be privatized wealth it was a trust a divine contract a symbol of amanah and when we trade that legacy for luxury apartments and corporate endowments we re not just failing the poor we are committing treason against the qur an itself this chapter alone is worth the entire book the narrative then shifts to what may be the most controversial revelation yet every prophet was an economist too zayd flips the entire historical narrative on its head he shows how the prophets of allah from yusuf as to

shu ayb as from musa as to muhammad were sent to dismantle unjust financial systems they didn't just speak about morality in a vacuum they confronted corrupt merchants fraudulent trade unethical pricing and exploitative debt systems they were divine economists before they were preachers if you think islamic finance is a modern reinterpretation of islamic law this chapter will shake you what you'll discover is that islamic finance is not just part of islam it is islam in action applied to the marketplace modern muslims often assume that their biggest spiritual risk is missing salah or eating haram food but the financial system we obey daily is far more dangerous zayd makes the uncomfortable point that most muslims are more afraid of bad credit scores than bad akhira records we've normalized sin under the guise of financial success riba is in our investments zakat is an afterthought and interest is brushed aside as a necessary evil but necessary for whom zayd explores this spiritual rot in his chapter no more excuses you've been shown the system where he outlines how excuses like i didn't know or everyone does it are nullified once knowledge is presented after this book no reader can claim ignorance again the book also dives into the explosion of cryptocurrency questioning whether bitcoin is truly the liberator it claims to be while crypto may have been satoshi nakamoto's middle finger to the banking elite zayd argues that islam delivered a more complete system 1400 years ago islamic finance when practiced authentically not just branded already prohibits inflation bans interest promotes risk sharing demands transparency and ties money to real assets bitcoin may challenge central banks but only islam challenges greed itself it's not about replacing paper with digital it's about replacing corruption with divine justice perhaps the most chilling part of volume 02 is its final third where zayd peels back the occult symbolism of the global financial order freemasonry economic dajjal secret societies jinn these are not speculative digressions they are integrated into the economic architecture of modernity zayd backs these claims with disturbing clarity connecting them to the prophetic warnings about dajjal deception and the end times the book argues that today's financial system is not just broken it is satanic by design the cure not activism not crypto not economic nationalism the cure is islamic revival islamic finance as presented here is not a niche alternative for religious people it is the only system that aligns morality with money trade with truth and profit with piety it is asset backed interest free community centered contractually transparent and unlike capitalism or socialism it is not

based on human experimentation it is based on divine revelation zayd insists that the halal economy is not a dream it is the original model from which we ve drifted and it is the only model with the moral infrastructure to rescue the world from spiritual and financial collapse this book is not for those seeking comfort it is for those seeking truth and that truth will burn before it builds it will confront before it converts it will pierce before it purifies but for those willing to face it truly face it volume 02 of the invisible debt trap is not just a book it is a weapon a warning a way out
