in law in american history volume iii 1930 2000 the eminent legal scholar g edward white concludes his sweeping history of law in america from the colonial era to the near present picking up where his previous volume left off at the end of the 1920s white turns his attention to modern developments in both public and private law one of his findings is that despite the massive changes in american society since the new deal some of the landmark

constitutional decisions from that period remain salient today an illustration is the court's sweeping interpretation of the reach of congress's power under the commerce clause in *Wickard v. Filburn* 1942 a decision that figured prominently in the supreme court's recent decision to uphold the affordable care act in these formative years of modern american jurisprudence courts responded to and affected the emerging role of the state and federal governments as regulatory and redistributive institutions and the growing participation of the united states in world affairs they extended their reach into domains they had mostly ignored foreign policy executive power criminal procedure and the rights of speech sexuality and voting today the united states continues to grapple with changing legal issues in each of those domains law in american history volume iii provides an authoritative introduction to how modern american jurisprudence emerged and evolved over the course of the twentieth century and the impact of law on every major feature of american life in that century white's two preceding volumes and this one constitute a definitive treatment of the role of law in american history

reprint of the original first published in 1879

when the handbook for research in american history was first published reviewers called it an excellent tool for historians of all interests and levels of experience simple to use and concisely worded western historical quarterly and an excellent work that fulfills its title in being portable yet well filled reference reviews the journal of american history added it is not easy to produce a reference work that is utilitarian and enriching and does not duplicate existing works professor prucha has done the job very well this second revised edition takes account of the revolution that is occurring in bibliographic science as printed reference works extend to electronic databases cd roms and online networks such as the internet focusing on and expanding the major section of the original handbook it provides information on traditional printed works describes new guides and updated versions of old ones notes the availability of reference works and of some full text sources in electronic form and discusses the usefulness to researchers of different kinds of material and the forms in which they are available extensive cross referencing and a detailed index that includes authors subjects and titles enhance the book's usefulness
