this book is about the role of negotiation in resolving terrorist barricade hostage crises what

lessons can be learned from past deadly incidents so that crisis negotiators and decision makers can act with greater effectiveness in the future what are the lessons the terrorists are learning and how will they affect the dynamics of future incidents what can we learn about the terrorist threat and about preventing the escalation of future terrorist hostage taking situations while there are many trained crisis negotiators around the world almost none of them has ever had contact with a terrorist hostage taking incident further the entire training program of most hostage negotiators focuses on resolving crises that do not take into consideration issues such as ideology religion or the differing sets of strategic objectives and mindsets of ideological hostage takers this is especially true with regard to the terrorists of the new breed who have become less discriminate more lethal and more willing to execute hostages and die during the incident further many of the paradigms and presumptions upon which the contemporary practice of crisis negotiation is based do not reflect the reality of the new terrorists the main focus of this book is on the detailed reconstruction and analysis of the two most high profile cases in recent years the moscow theater and the beslan school hostage crises with a clear purpose of drawing lessons for hostage negotiation strategies in the future this is an issue of top priority terrorist manuals from countries such as saudi arabia and iraq reveal that terrorist organizations are very closely observing and analyzing the lessons learned from these two incidents suggesting that we are likely to see this type of new terrorist hostage taking involving large numbers of suicide fighters and executions of hostages at some point in the future this raises a wide array of questions about appropriate responses and negotiation strategies from the first glance it is clear that we are not prepared

describes the 1979 1981 iran hostage crisis

the execution of american hostage lt col william higgins has again underscored the power that a handful of middle eastern terrorists holds over the united states the legacy of one presidency destroyed by its inability to free american diplomats held hostage in teheran and another tarnished by its futile attempt to trade arms for the hostages in lebanon are reminders of the u s failure to solve the problems of terrorism this paper reviews the problems that past presidents have faced in responding to terrorist acts and provocations and offers some thoughts on what types of military

responses might prove most effective the author suggests that israel should not be condemned but be praised for its bold move in apprehending sheikh obeid the commander of the pro iranian hezbollah terrorist organization we should accept that no progress will be made in the struggle against terrorism until the terrorists state sponsors are held accountable for their aid and encouragement and the united states must have a clear and consistent policy on terrorism

for more than two centuries the u s supreme court has provided a battleground for nearly every controversial issue in our nations history this veteran team of talented historians produces the most readable astute and up to date single volume history of this venerated institution

a sharp analysis of the similarities differences and impact of the presidencies of franklin roosevelt and ronald reagan two iconic figures representing polar opposites of twentieth century american politics

a lively account of the outspoken first lady during her white house years showing how the silver fox used her rich experience in politics to master the public relations side of first ladyship with as much skill as any white house spouse

now that reagan s achievements and failures have become more obvious it is time for a new nonpartisan appraisal of his leadership and its impact on the nation that is precisely what john sloan delivers sloan focuses especially on the questions raised in the highly polemical debates between conservatives and liberals concerning reagan s economic policies he gives equal time to both sides showing how liberals were wrong in their predictions of gloom while conservatives continue to grant reagan more credit and status than he deserves

after the nixon and ford administrations liberal democrats hoped jimmy carter s election in 1976 would restore the new deal agenda in the white house instead during four tumultuous years in office carter endorsed many of the fiscal and economic policies later espoused by his republican successor ronald reagan but carter also backed most new deal social programs and however reluctantly pursued a

traditional containment foreign policy in this book more than a dozen eminent scholars provide a balanced overview of key elements of carter s presidency examining the significance of his administration within the context of evolving american policy choices after world war ii they seek not only to understand the troubled carter presidency but also to identify the changes that precipitated and accompanied the demise of the new deal order by the time carter took office many americans had become disenchanted with big government and welfare spending and his presidency is viewed in these pages as a transitional administration as this volume demonstrates carter s dilemma emerged from his effort to steer a course between traditional expectations of federal government and new political and economic realities while most of the contributors agree that his administration may be justly criticized for failing to find that course they generally conclude that carter was more successful than his critics acknowledge these thirteen original essays cover such topics as the economy trade and industrial policies welfare reform energy environment civil rights feminism and foreign policy they offer thoughtful assessments of carter s performance focusing on policy both as cause and effect of the post industrial transformation of american society that shadowed his administration a final essay shows how carter s public spirited post presidential career has made him one of america s greatest ex presidents grounded on research conducted at the carter library the carter presidency is an incisive reassessment of an isolated democratic administration from the vantage point of twenty years it is a milestone in the historical appraisal of that administration inviting us to take a new look at jimmy carter and see what his presidency represented for a dramatically changing america

most information on a hostage crisis centers on police operations and not the man on the phone who quietly resolves situations without loss of life mcmain san antonio police dept and mullins southwest texas state u rectify that neglect presenting a detailed analysis of crisis negotiation the development definitions and characteristics of a crisis hostage taker demands and the effects of time on a situation the stockholm syndrome stress and stress management communication techniques intelligence and intelligence gathering hostage negotiations in prisons equipment media relations and debriefing each key concept is supported by numerous case studies and in some cases actual

a former member of the civil rights division of the us department of justice established in 1957 explains the agency s role in combating institutionalized racism he discusses political realities national priorities the widening of the mandate weathering political shifts in washington conflicts between career civil servants and political appointees and other aspects he also analyzes the consequences of its litigation positions and considers whether the structure of enforcement should be changed annotation copyrighted by book news inc portland or

a political scientist who went on to become president woodrow wilson envisioned a responsible government in which a strong leader and principled party would integrate the separate executive and legislative powers his ideal however was constantly challenged by political reality daniel stid explores the evolution of wilson s views on this form of government and his endeavors as a statesman to establish it in the united states the author looks over professor and then president wilson s shoulder as he grappled with the constitutional separation of powers demonstrating the importance of this effort for american political thought and history although wilson is generally viewed as an unstinting and effective opponent of the separation of powers the author reveals an ambivalent statesman who accommodated the founders logic this book challenges both the traditional and revisionist views of woodrow wilson by documenting the moderation of his statesmanship and the resilience of the separation of powers in doing so it sheds new light on american political development from wilson s day to our own throughout the twentieth century political scientists and public officials have called for constitutional changes and political reforms that were originally proposed by wilson by reexamining the dilemmas presented by wilson s program stid invites a reconsideration of both the expectations we place on the presidency and the possibilities of leadership in the founders system the president as statesman contributes significantly to ongoing debates over wilson s legacy and raises important questions about the nature of presidential leadership at a time when this issue is at the forefront of public consciousness

where did the era of divided government come from what sustains split partisan control of the

institutions of american national government year after year why can it shift so easily from democratic or republican presidencies coupled with republican or democratic congresses how can the vast array of issues and personalities that have surfaced in american politics over the last forty years fit so neatly within indeed reinforce the sustaining political pattern of our time these big questions constitute the puzzle of modern american politics the old answer a majority and a minority party plus dominant and recessive public issues will not work in the era of divided government byron shafer a political scientist who is regarded as one of the most comprehensive and original thinkers on american politics provides a convincing new answer that has three major elements these elements in combination not divided government as a catch phrase are the real story of politics in our time the first element is comprised of two great sets of public preferences that manifest themselves at the ballot box as two majorities the old cluster of economic and welfare issues has not so much been displaced as simply joined by a second cluster of cultural and national concerns the second element can be seen in the behavior of political parties and party activists whose own preferences don't match those of the general public that public remains reliably left of the active republican party on economic and welfare issues and reliably right of the active democratic party on cultural and national concerns the third crucial element is found in an institutional arrangement the distinctively american matrix of governmental institutions which converts those first two elements into a framework for policymaking year in and year out in the first half of the book shafer examines how dominant features of the reagan first bush clinton and second bush administrations reflect the interplay of these three elements recent policy conflicts and institutional combatants in shafer's analysis illuminate this new pattern of american politics in the second half he ranges across time and nations to put these modern elements and their composite pattern into a much larger historical and institutional framework in this light modern american politics appears not so much as new and different but as a distinctive recombination of familiar elements of a political style a political process and a political conflict that has been running for a much much longer time

the modern american presidency is a lively interpretive synthesis of 20th century leaders filled with intriguing insights into how the presidency has evolved as america rose to prominence on the

world stage would trace the decline of the party system and the increasing importance of the media resulting in the rise of the president as celebrity 36 photos

this collection offers alternative explanations of local actions with a focus on conflict it features examples of experiences selected from various cities it examines how the responses of local governments to specific issues are influenced by such factors as political culture and institutions

revisits the largely forgotten story of how the mcgovern campaign represented the zenith of sixties style liberalism and how its historic defeat still haunts democrats to this day and in the process identifies what democrats must do before they can reassume their role as agents of progressive change

this is a collection of carefully chosen documents and commentary that constitute an anthology of u s foreign policy resources for the post world war ii era the contents are arranged topically with major segments devoted to foreign policymaking the conduct of foreign affairs general foreign policy principles and presidential doctrines crisis diplomacy basic and specialized functional foreign policies and regional issues types of documents excerpted include policy pronouncements legislative enactments international compacts diplomatic exchanges presidential doctrines and international declarations and resolutions isbn 0 313 26032 x 85 00 for use only in the library
