iraq the moral reckoning applies classic just war theory to the u s decision to go to war in 2003 that theory which evolved over several millennia is a simple profound tool for evaluating the rightness and wisdom of starting a war the bush administration and its supporters referred directly and indirectly to the theory in making a pro war case to the world the theory provides three core

moral criteria for a just war sovereign authority just cause and right intention which includes an aim of peace it adds three practical criteria proportionality of ends last resort and reasonable chance of success for a just war each criterion should be substantially met since war is destructive and each country is presumed to have the right to live in peace the evidence in favor of war must be clearly stronger than evidence against it for each criterion *iraq the moral reckoning* painstakingly weighs bush administration statements or those of its supporters against evidence available at the time a wide range of viewpoints and evidence is considered and contrary arguments are refuted one full chapter is given to neoconservative arguments on just war theory and its application from prominent war supporters each criterion except sovereign authority is shown not to have been met the book concludes with a discussion of the implications of an unjust war for the united states and the world the intensive weighing of each criterion against the facts and the balanced approach make the book unique by demonstrating a comprehensive application of the theory to one war it not only sets a new standard for evaluating the 2003 iraq war but also shows how present and future wars can be better evaluated in moral and practical terms based on knowledge available at the time

this book examines iraq since 2003 and argues that a new democratic iraq cannot be grounded on destructive politics of victimization narrow nationalism sectarian confessionalism and a consensual power sharing political arrangement this book provides an in depth analysis from an iraqi perspective on the political development in iraq since 2003 thereby filling a gap that currently exists in the discussion of this embattled nation within its pages author david ghanim scrutinizes the many contradictions of the new experience in iraq and exposes the myth of a new democratic iraq by providing a unflinching look at the dysfunctional nature of democracy in iraq the centrality of violence in iraqi

society and politics and the deterioration of the rights and treatment of minorities and women in Iraq Iraq's dysfunctional democracy exposes how the new Iraq after the nearly decade long involvement of the United States is becoming a republic of corruption complex issues such as ethnic federalism ethno sectarian elections politics of victimization deceptive legitimacy and the effects of de-Ba'athification are covered in detail serving to illuminate the multilayered obstacles to stabilizing Iraq a country that serves as the linchpin for the security of the Middle East as well as the rest of the world

The Terrorists of Iraq: Inside the Strategy and Tactics of the Iraq Insurgency 2003-2014 second edition is a highly detailed and exhaustive history and analysis of terror groups that both formed the Iraq insurgency and led to the rise of the Islamic State of Iraq and Syria (ISIS). It places heavy emphasis on the history organization and personal

No Way Home: Iraq's Minorities on the Verge of Disappearance seeks to document the situation of Iraq's ethnic and religious minorities most affected by the violence that escalated after the fall of Mosul in June 2014. It is a follow-up report to *Between the Millstones: The State of Iraq's Minorities Since the Fall of Mosul* published in March 2015. Since June 2014, many thousands of persons belonging to minorities have been murdered, maimed or abducted, including unknown numbers of women and girls forced into marriage or sexual enslavement. ISIS forces and commanders have committed war crimes, crimes against humanity and the crime of genocide, including summary executions, killing, mutilation, rape, sexual violence, torture, cruel treatment, the use and recruitment of children, outrages on personal dignity and the use of chemical weapons. Cultural and religious heritage dating back centuries continues to be destroyed while property and possessions have been systematically looted. These abuses are ongoing at the time of writing and appear to be part of a conscious attempt to eradicate Iraq's religious and ethnic diversity. It should also be stressed that as the latest phase in the conflict reaches a two-year benchmark, forces fighting ISIS have also apparently committed human rights and international humanitarian law violations, including Iraqi security forces' popular mobilization units and Kurdish Peshmerga. The millions of displaced still remain in camps and there are no serious returns to areas retaken from ISIS. As of March 2016, internal displacement exceeded 3.3 million. Iraqi sources estimate the total number of those who have lost their homes and are internally displaced at more than 4 million. Factoring in those IDPs not registered, currently there appears to

be no serious iraqi or international effort to build the political social and economic conditions for the sustainable return of those who lost homes and livelihoods as a result of the conflict militias and unscrupulous local authorities are exploiting this vacuum this report is called no way home to highlight the despair iraqi ethnic and religious communities feel about prospects for return this perspective is rooted both in a sense of hopelessness about the prospect of return and frustration with the continued deterioration of humanitarian conditions there is a lack of trust that the government regional actors local officials or the international community will provide the necessary support to facilitate returns locate missing persons provide justice facilitate the difficult process of reconciliation and ensure the return of looted possessions and homes the result will be another iraqi lost generation radicalized by homelessness and depredation repeating the cycle that created isis

this book links sectarianism in iraq to the failure of the modern nation state to resolve tensions between sectarian identities and concepts of unified statehood and uniform citizenry after a theoretical excursus that recasts the notion of primordial identity as a socially constructed reality the author sets out to explain the persistence of sectarian affiliations in iraq since its creation following the dismemberment of the ottoman empire despite the adoption of homogenizing state policies the uneven sectarian composition of the ruling elites nurtured feelings of political exclusion among marginalized sectarian groups the shicites before 2003 and the sunnis in the post 2003 period the book then examines how communal discourses in the educational curriculum provoked masked forms of resistance that sharpened sectarian consciousness tracing how the anti persian streak in the nation state s pan arab ideology which camouflaged anti shicism undermined iraq s national integration project sectarianism in iraq delves into the country s slide from a totalizing pan arab ideology in the pre 2003 period toward the atomistic impulse of the federalist debate in the post 2003 period employing extensive fieldwork this book sheds light on the dynamics of political life in post saddam iraq and is essential reading for iraqi and middle east specialists as well as those interested in understanding the current heightening of sectarian sunni shicite tensions in the middle east

the invasion of iraq by american british and other coalition forces has indeed transformed the middle east but not as the bush and blair administrations had imagined it is iran not western style democracy that has emerged as the big winner creating a tehran baghdad axis that would have been unthinkable before the war the end of iraq is the definitive account of the us and uk s catastrophic involvement in iraq as told by america s leading independent expert on the country peter galbraith reveals in exquisite detail how us policies some going back to the reagan administration have now produced a nearly independent kurdistan in the north an islamic state in the south and uncontrollable insurgency in the centre and an incipient sunni shiite civil war that has baghdad as its central front iraq galbraith argues cannot be reconstructed as a single state instead a sensible strategy must accept that it has already broken up and focus instead on stopping an escalating civil war unflinching accessible and powerful the end of iraq explores and explains the myriad mistakes and false assumptions that have brought the country to its current pass and what must be done to prevent further bloodshed
