the term cult film star has been employed in popular journalistic writing for the last 25 years but what makes cult stars distinct from other film stars has rarely been addressed this collection explores the processes through which film stars actors become associated with the cult label from bill murray to ruth gordon and ingrid pitt

this book studies the social cultural historical legal and economic dimensions of copyright piracy in india

the age of decentralization talks about various decentralization technologies including web3 decentralized identity and decentralized storage and how they can be incorporated in traditional tech architectures to improve technical and business performance in this book the authors take us on a journey through the tech landscape exploring how decentralized technologies including web3 are on the verge of becoming mainstream and offer a practical roadmap for understanding and embracing this shift web2 brought us the great centralization by centralizing not only data but also business processes blurring the industry boundaries so payment platforms started offering e commerce services and ride hailing services started delivering food scale became the most effective moat but at the same

time these huge platforms became a magnet for security threats and started violating user privacy rights and consumer rights the authors argue that the technological regulatory and social landscape is ready for the next evolution of technology systems as decentralization technologies get incorporated into traditional architectures this book serves as a guide for readers to understand the fundamentals of web3 along with other decentralized technologies and creates a framework for incorporating them into traditional architectures at the same time the authors explore the organization level as well as the macro implications of decentralized technologies

seminar paper from the year 2006 in the subject english language and literature studies linguistics grade 1 0 bielefeld university language english abstract obituaries in newspapers and magazines are solemn quiet affairs but the new media offer a different kind of way of honoring a deceased loved one you can publish articles countless picture interactive guest books and other gimmicks but a very popular means of mourning are slideshow obituaries a few notes concerning terminology are necessary at this point the term obituary is traditionally used for text only formats sometimes including a single picture that appear in newspapers the slideshow obituaries of our corpus are structurally as well as content wise very different from these nonetheless we use have the term as a

starting point for our paper and will use it throughout our text one can argue that a comparison between slideshow obituaries and traditional ones is impossible because of the high discrepancies in structure and content but our reason for omitting such a comparison is based on the fact that an analysis of this kind would have to rely primarily on linguistic aspects the numerous pictures in slideshow obituaries would be dealt with very briefly and which does not do justice to the prominent role they play in this particular kind of text but the more of a slideshow obituary is not only the pictures other visuals play an important role the layout the hosting website you have the freedom to use different fonts and font sizes you can create everything from scratch or fall back on websites that provide design templates you can add music or a voice message the content is usually much less limited than that of a traditional obituary this myriad of design possibilities leads to our hypothesis we propose that in slideshow obituaries the different modalities especially word and image cannot be separated from one another they fulfill inherently different functions and
