integrated truth and existential phenomenology a thomistic response to iconic anti realists in science relates an existential phenomenology to modal reasoning by this reasoning rooted in a consciousness of phenomena in themselves a thomistic realism is advanced wherein scientific inquiry yields objective truth and presupposes a causal principle this principle as an inferably true modality strictly implies a first cause and this cause as a supreme norm causally created human nature as it ought to be so with no naturalistic fallacy a naturalistic ethics is inferred from our psycho biological nature that also informs art and politics politics as the institutionalization of ethics is inferable from ethical prescriptions that are as certifiably true as the descriptions of science that inform it
