published by the american geophysical union as part of the geophysical monograph series volume 72 the study of the earth's deep interior is the object of a spectacular development due both to new techniques of observation including very long baseline interferometry and superconducting gravimeters and to progress in theory spurred by new computing capability stimulated by the international sedi group founded in 1986 geophysicists from different

disciplines earth dynamicists seismologists geomagneticians mineral physicists began to cooperate and integrate more fully one another's work. Such meetings favor and promote those close contacts and cooperation. Great efforts will still be needed before all the disciplinary divisions dissolve if they ever do but things are clearly improving as shown by this AGU monograph. We think indeed that this volume is a good although incomplete illustration of the situation as described above and that it is a benchmark in the exciting story of the progress in knowledge of the deep interior of our planet.

eleven minibooks comprising nearly 800 pages offer would-be online entrepreneurs all the information they need to launch an e-business and succeed in today's marketplace. Unlike competing guides, this book explains how to redesign a site, retool marketing strategies, and run a nonprofit site as well as offering in-depth coverage of how to secure a site and move from retail to e-tail. Minibooks cover online business basics, legal and accounting matters, site design, operational issues once a business is up and running, internet security, how to boost sales, taking a brick-and-mortar business online, storefront selling at eBay and elsewhere, fundraising at a nonprofit site, running a niche e-business, and advanced e-commerce techniques and strategies.

Connoisseurs of fantasy, science fiction, and horror have long recognized the important contributions of thousands of French authors, filmmakers, and artists. The volume is divided into two parts. Part I gives historical overviews, complete lists, descriptions, and summaries for works in film, television, radio, animation, comic books, and graphic novels. This section also includes interviews with animation director René Laloux and comic book artist Moebius, as well as comments from filmmaker Luc Besson. Biographies are provided for over 200 important contributors to television and graphic arts. Part II covers the major authors and literary trends of French science fiction, fantasy, and horror from the middle ages to the present day. French Canadians and Belgians are also examined. There is a biographical dictionary of over 3,000 authors, a section on major French awards, and a complete bibliography. Many illustrations illuminate this thorough presentation.

Communication Satellites chronicles the worldwide development of communication satellites over a period of more than four decades. It includes drawings of satellites, communication subsystem block diagrams, coverage maps, extensive references, and a supplemental bibliography.
