evaluating the impact of globalization on issues like altruism empowerment of women crime and violence culture area studies economy and production and the sociology of humanity this book makes the ethical and moral aspects of globalization its main concerns the complexities of the globalization process in the developing world are explored the debate between globalization and localization between indigenization and hybridization between equalization and unequalization the contributors also examines the consequences for transitional economies in their interactions with multinational corporations and the rise of the anti globalization movement in the past decade

this comprehensive two volume encyclopedia documents how populism which grew out of post civil war agrarian discontent was the apex of populist impulses in american culture from colonial times to the present the populist movement was founded in the late 1800s when farmers and other agrarian workers formed cooperative societies to fight exploitation by big banks and corporations today populism encompasses both right wing and left wing movements organizations and icons this valuable encyclopedia examines how ordinary people have voiced their opposition to the prevailing political economic and social constructs of the past as well how the elite or leaders at the time have reacted to that opposition the entries spotlight the people events organizations and ideas that created this first major challenge to the two party system in the united states additionally attention is paid to important historical actors who are not traditionally considered populist but were instrumental in paving the way for the movement or vigorously resisted populism s influence on american culture this encyclopedia also shows that populism as a specific movement and populism as an idea have served alternately to further equal rights in america and to limit them

twelve population scientists address the questions what are the major changes that occurred in the 1980s what

created these changes what major consequences result from these changes for the present and for the future included are chapters that give theoretical explanations of social change discuss the social and ecological effects of high population density and show the change in population composition fertility and mortality rates and migration patterns in addition to these traditional demographic concerns the work also provides insights into community redevelopment poverty changing family patterns and ethnic identification

addressing the complex interplay between climate change democratic governance and scientific knowledge in the anthropocene era this book focuses on how political systems respond to the global ecological crisis and to what extent they are structurally capable of doing so the world we have created climate democracy and knowledge details how the de democratization of ecological decision making favors models of authoritarian governance as democratic values such as transparency participation and accountability are continually undermined offering a robust account of the responses to the climate crisis and the necessary social and political changes posed by the scientific consensus this book analyses the growing discrepancy between scientific knowledge about the causes and consequences of climate change and the lack of political and social willingness to implement necessary measures comprehensive social change is needed that focuses on social justice intergenerational responsibility and political participation and it is only by strengthening democratic structures and integrating knowledge into responsible governance can we open paths to a resilient just and liveable future this sharp interdisciplinary intervention bridges sociological political and philosophical thinking to underline the necessity of hope and utopian social imagination together with concrete changes to the constitution that guarantees a safe environment for future generations

join the conversation with one of sociology s best known thinkers essentials of sociology second edition adapted

from george ritter's introduction to sociology third edition provides the same rock solid foundation in a shorter and more streamlined format like the original ritter text essentials of sociology illuminates traditional sociological concepts and theories and focuses on some of the most compelling contemporary social phenomena globalization consumer culture the internet and the mcdonaldization of society as technology flattens the globe students are challenged to apply a sociological perspective to their world and to see how public sociologists are engaging with the critical issues of today

appropriate for courses in social change the fourth edition provides a clear and timely analysis of the major theoretical perspectives sources processes patterns and consequences of social change

this engaging two volume study urges a balance between theoretical and practical sociology applied sociologists adapt theoretical knowledge to actual human situations using it to formulate social policy investigate domestic and international social problems and create a pragmatic sociology of possibility these essays emphasize the close association of applied sociology with altruism identity formation race and ethnicity they evaluate the empirical truths of sociological theories and examine their relevance for contemporary research poverty demographic issues and social policies framed in the context of globalization each chapter of the study provides some workable guidelines for social scientists policymakers planners administrators and social activists the reader is also introduced to the sophisticated research methods employed in the social sciences excessive theorizing is avoided as modern crises precipitated by war terrorism anarchy and poverty are examined in practical and realistic terms
