tells the story of how flaubert's admiration for cervantes don quijote unfolded and how profoundly it shaped and influenced flaubert's ambition and his approach to all his major works beginning with his breakthrough novel madame bovary

building on her earlier work law and literature maría josé falcón y tella's new study takes a fresh look at the law in the works of two of the greatest authors in world literature cervantes and shakespeare in doing so she examines subjects as wide ranging as individual rights and freedoms government and the administration of justice criminal law civil law labor law commercial law and the treatment of mental illness among others this original and thought provoking volume offers readers insight into the law as literature and the law in literature through the prism of masterpieces such as don quixote and hamlet

roger chartier examines how authors transformed the material realities of writing or of publication into an aesthetic resource exploited for poetic dramatic or narrative ends

in early modern europe the first readers of a book were not those who bought it they were the scribes who copied the author's or translator's manuscript the censors who licensed it the publisher who decided to put this title in his catalogue the copy editor who prepared the text for the press divided it and added punctuation the typesetters who composed the pages of the book and the proof reader who corrected them the author's hand cannot be separated from the printers mind this book is devoted to the process of publication of the works that framed their readers representations of the past or of the world linking cultural history textual criticism and bibliographical studies dealing with canonical works like cervantes don quixote or shakespeare's plays as well as lesser known texts roger chartier identifies the fundamental discontinuities that transformed the circulation of the written word between the invention of printing and the definition three centuries later of what we call literature

merleau ponty's categories of the visible and the invisible are investigated afresh and with originality in this penetrating collection of literary and philosophical inquiries going beyond the traditional and current references to the mental and the sensory mind and body perceptual content and the abstract ideas conveyed in language etc these studies range from the hidden spheres of reality to the play of the visible and the invisible left as traces in works of human genius the origins of intellect and language the real and the imaginary in literature and the hidden realities in the philosophy of the everyday world these literary and philosophical probings collectively reveal the role of this disjoined conjoined pairing in the onto-poietic establishment of reality that is in the manifestation of the logos of life in tandem they bring to light the hidden play of the visible and the invisible in the emergence of our vital societal intimate intellectual and creative involvements

maría josé falcón y tella invites us on a fascinating journey through the world of law and literature travelling through the different eras and exploring eternal and as such current issues such as justice power resistance vengeance rights and duties this is an unending conversation which brings us back to sophocles and dickens cervantes and kafka dostoyevsky and melville among many others there are many ways to approach the concept of law and literature in the classical manner the author distinguishes three paths the law of literature involving a technical approach to the literary theme law as literature a hermeneutical and rhetorical approach to examining legal texts and finally law in literature which is undoubtedly the most fertile and documented perspective the fundamental part of the work focusses on this direction this timely volume offers an introduction to this enormous field of study which was born in the united states over a century ago and is currently taking root in the european continent

the volume celebrations and connections in hispanic literature is itself a celebration of a tradition of scholarly dialogue in a relaxed festive atmosphere the articles included here began as papers presented at the 25th anniversary edition of the biennial louisiana conference on hispanic languages and literatures held in baton rouge louisiana february 23 24 2006 each of the authors responds in innovative ways to the idea of connecting texts contexts and genres as well as to the disconnect that is often present between what we perceive as hispanic identity and the experience of those left on the margin topics include celebrating and rewriting difference de colonized identities word and image in the spanish golden age and latin american literature and politics among others the collection is demonstrative of current trends in hispanic literary and cultural criticism which are increasingly less bound by traditional regional and temporal constructs while each author's research is

rooted in a specific socio historic context their combined contributions to the present volume provide a far reaching perspective that expands the notion of text to go beyond the literary and engage a multitude of disciplines it emphasizes the often illuminating connections among literary and cultural texts which can be drawn when one conceives of hispanism and its literary and cultural fields as shaped by trends and issues rather than divided by periods and regions what strikes me most is the newness of each piece while each is very well informed none rehearses old historical or theoretical ground more than is absolutely necessary but rather presents either a new or overlooked text or offers a new approach leslie bary university of louisiana lafayette an impressive array of well established and younger scholars has produced a volume whose scope is the entire hispanic world extending from the golden age to the contemporary era this volume will be of interest to all scholars and critics of hispanic literature as well as to historians and political scientists many of the essays challenge traditional assumptions about the colonization of the hispanic world as well as the motivations for the revolutions for independence whose influence is still strongly alive in contemporary treatments of fundamental questions of national identity race class and gender c chris soufas jr tulane university

the purpose of this book is to examine the characters style themes structure and narrative technique of that chivalric world i hope to show among other things that don quijote begins to retreat from his chivalric fantasy and to reach an accord with reality in part i of the novel rather than in part ii as is generally believed that sancho panza both undermines and sustains his master s fantasy from the start that the priest and the barber are not as first presented don quijote s friends but rather his greatest enemies and that cide hamete benengeli becomes increasingly unreliable as a narrator and increasingly comic as a character in the second part of the novel
