the handbook of college reading and study strategy research is the most comprehensive and up to date source available for college reading and study strategy practitioners and administrators in this thorough and systematic examination of theory r

this completely updated study guide textbook is written to support the formal training required to become certified in clinical informatics the content has been extensively overhauled to introduce and define key concepts using examples drawn from real world experiences in order to impress upon the reader the core content from the field of clinical informatics the book groups chapters based on the major foci of the core content health care delivery and policy clinical decision making information science and systems data management and analytics leadership and managing teams and professionalism the chapters do not need to be read or taught in order although the suggested order is consistent with how the editors have structured their curricula over the years clinical informatics study guide text and review serves as a reference for those seeking to study for a certifying examination independently or periodically reference while in practice this includes physicians studying for board examination in clinical informatics as well as the american medical informatics association amia health informatics certification this new edition further refines its place as a roadmap for faculty who wish to go deeper in courses designed for physician fellows or graduate students in a variety of clinically oriented informatics disciplines such as nursing dentistry pharmacy radiology health administration and public

health

this thoroughly updated second edition of the handbook of youth mentoring presents the only comprehensive synthesis of current theory research and practice in the field of youth mentoring editors david l dubois and michael j karcher gather leading experts in the field to offer critical and informative analyses of the full spectrum of topics that are essential to advancing our understanding of the principles for effective mentoring of young people this volume includes twenty new chapter topics and eighteen completely revised chapters based on the latest research on these topics each chapter has been reviewed by leading practitioners making this handbook the strongest bridge between research and practice available in the field of youth mentoring

this edited book by two prominent professionals of sport and exercise and performance sciences addresses relevant issues and experiences as one becomes a sport exercise and performance psychology practitioner chapters discuss the supervision and training involved along with models of practice theory techniques and ethical issues

a concise survey and analysis of presidential attempts over the last thirty years by democrats and republicans alike to dismantle the regulatory state that first appeared under fdr argues that the war against regulation failed and that its excesses remind us of the value and proper role of regulation in american government

most of the papers in this volume focus on innovation strategies others on organization communication and education discuss preconditions of innovation which of course are also of a strategic character the work focuses more on general principles and philosophical considerations than on techniques the increase in interdisciplinary relations with other fields of research has been a determining factor in specific methods receding into the background the volume presents papers in the academic scientific and research fields as well as contributions related to practical implementation within the field of innovation management discussion results and fields of future research are summarized the work will be of interest to experts and managers in the field of

management technology and innovation practice as well as scientists and students involved in the field of innovation research

break through anyone's anger and win their trust in crises large and small leonard s greenberger is a partner at one of today's most successful public relations firms in what to say when things get tough this seasoned expert offers verbal and nonverbal skills for handling communication crises in any public forum this book is one of the best guidebooks on the practice of public relations that i have seen jim owen executive director member relations edison electric institute if you want to learn why powerpoint is a very poor way to present why empathy works wonders how positive messages eye contact and the right facial expressions can add up to make you overwhelmingly effective or not then this book is for you ari weinzweig cofounder and founding partner zingerman's and author of zingerman's guide to giving great service and zingerman's guide to good leading every business professional should have a copy on the shelf and pull it down whenever a tough situation presents itself win porter president waste policy center former assistant administrator for solid waste and emergency response u s environmental protection agency

osgood focuses on major campaigns such as atoms for peace people to people and cultural exchange programs drawing on recently declassified documents that record u s psychological operations in some three dozen countries he tells how u s propaganda agencies presented everyday life in america to the world its citizens living full happy lives in a classless society where economic bounty was shared by all osgood further investigates the ways in which superpower disarmament negotiations were used as propaganda maneuvers in the battle for international public opinion he also reexamines the early years of the space race focusing especially on the challenge to american propagandists posed by the soviet launch of sputnik

organizations such as the sierra club and friends of the earth are familiar to anyone with an interest in environmental protection as activist groups they played by the same rules for years but in 1994 the rules changed with the republican takeover of congress environmental groups faced sweeping changes in federal policies that threatened the enforcement of environmental laws as these organizations intensified their efforts to meet these challenges they also altered their electoral strategies and political spending

patterns this book traces those actions and shows what they mean for the future of environmentalism in the political arena while environmental advocacy groups have become bigger and better funded in recent years so have the corporate interests that compete with them for the attention of public and politicians the green agenda in american politics offers a new look at environmental advocacy that focuses on contemporary lobbying electioneering and agenda setting in this new context drawing on interviews with activists from a wide range of organizations robert duffy describes what environmental groups actually do when lobbying officials or the public he examines activity at both national and state levels to emphasize their growing use of websites email and action alert networks to conduct more sophisticated grassroots campaigns and he shows how they are devoting more funds to unregulated forms of spending such as independent expenditure issue advocacy advertising and public education campaigns duffy also tracks emerging trends in interest group politics and provides an overview of activism through the early 1990s he then documents the emergence of more aggressive action after 1994 such as providing campaign services to candidates and mounting voter registration drives he also shows how state and local groups have begun to play more important roles in the wake of the rollback of federal environmental regulations brimming with new insights into interest group lobbies in general and contemporary environmental groups in particular duffy s book opens a new window on the influence of big money in the supposedly democratic electoral process
