recent work at the intersection of moral philosophy and the philosophy of psychology has dealt mostly with aristotelian virtue ethics the dearth of scholarship that engages with hume's moral philosophy however is both noticeable and peculiar hume's moral philosophy and contemporary psychology demonstrates how hume's moral philosophy comports with recent work from the empirical sciences and moral psychology it shows how contemporary work in virtue ethics has much stronger similarities to the metaphysically thin conception of human nature that hume developed rather than the metaphysically thick conception of human nature that aristotle espoused it also reveals how contemporary work in moral motivation and moral epistemology has strong affinities with themes in hume's sympathetic sentimentalism

first published in 1960 this book is intended to be a concise but complete treatise on ethics in the course of our lives we all face moral problems some of these we solve easily some with difficulty and some not at all it is the job of the moral philosopher to examine the general nature of these problems and to investigate their logical significance his task however extends beyond investigating what are specifically moral problems for he is concerned with the whole field of moral discourse that is with moral prescriptions and evaluations of all kinds for this reason the branch of philosophy known as ethics may usefully be defined as the study of the logic of moral discourse this volume is written in clear and straightforward language and is liberally illustrated with practical examples it should appeal not only to teachers and students of ethics in universities but also to the general reader who is interested in seeing how an important branch of philosophy is presented with the aid of analytical methods

put together to honour one of the most influential philosophers in recent times mrinal miri this book brings together articles on philosophy politics literature and society and updates the status of enquiry in each of these fields in his philosophical writings miri has broken the stranglehold that early training has on academics and written on a range of themes and areas including analytical philosophy political philosophy tribal identity ethics and more recently an abiding engagement with the ideas of gandhi the articles in this volume mirror some of miri's concerns and philosophical interests but go beyond the format of a festschrift as they seek to enhance and restate themes in moral philosophy ethics questions of identity gandhi's philosophy and offer a fresh perspective on themes such as secularism religion and politics
