throughout the history of european imperialism the grand narratives of the bible have been used to justify settler colonialism the zionist bible explores the ways in which modern political zionism and israeli militarism have used the bible notably the book of joshua and its description of the entry of the israelites into the promised land as an agent of oppression and to support settler colonialism in palestine the rise of messianic zionism in the late 1960s saw the beginnings of a jewish theology of zealotocracy based on the militant land traditions of the bible and justifying the destruction of the previous inhabitants the

zionist bible examines how the birth and growth of the state of israel has been shaped by this zionist reading of the bible how it has refashioned israeli jewish collective memory erased and renamed palestinian topography and how critical responses to this reading have challenged both jewish and palestinian nationalism

how should christians today understand the many promises and prophecies in the old testament about the future of israel and its land are christian zionists justified in believing that these have been fulfilled in the return of jews to their land since the 1880s and the creation of the state of israel in 1948 this book discusses all the key texts about the restoration of israel that are quoted in these debates questioning the christian zionist interpretation and offering an alternative this is followed by a detailed study of two important old testament texts dealing with the future of israel ezekiel 33 47 and zechariah 9 13 understanding them in their original context and exploring how they are interpreted in the new testament this is no theoretical ivory tower debate we are dealing here with the most bitter and protracted conflict of the last 150 years and the way we interpret the bible has profound political consequences

religion has played a major role in history affecting the course of events and influencing individuals today one frequently hears the expression the return of religion but opinions differ as to how this return is to be understood it is clear that modernity and postmodernity have not meant that religion is dead or relegated to society s backyards religion is still of vital importance for many people it has to some extent changed shape but has not lost its legitimacy and attractiveness to broad groups religion is public visible and has a sought for voice but it is also wrestling with extremism ignorance and preconceptions just like ideologies religions are capable of activating diametrically opposite traits in humans it is this dual tension that is implicit in the question mark in this book s title mending the world this book s aim is to help explore whether how and in what ways religion church and theology can contribute constructively to the future of a global society in thirty one chapters researchers from around the world address the relation between religion and society

i am glad to commend stephen sizer s groundbreaking critique of christian zionism his comprehensive overview of its roots its theological basis and its political consequences is very timely i myself believe that zionism both political and christian is incompatible with biblical faith stephen s book has helped to reinforce this conviction rev dr john stott i believe stephen sizer is one of the most authoritative scholars in the world on the vital issue of christian zionism he is a very important voice speaking out against this destructive movement that is killing us palestinians through its theology canon naim ateen stephen sizer s

christian zionism road map to armageddon is essential reading for any western evangelical trying to understand the religious dimensions of american support for israel sizer writes as an insider within the church not as a critic watching from afar and he shows with exacting clarity how evangelical eschatology has now embedded itself in a modern political ideology one quick read of this book will change anyone s perspective on the middle east permanently professor gary m burge congratulations on christian zionism the index alone makes my mouth water since this is the scholarly treatment to counteract the rabid prophecy pack for which i had been searching i couldn t be happier that this is published you and i see eye to eye on this issue yours is a true prophetic voice so badly needed in the current prophecy frenzy and when this mania also affects national and international policy the danger takes on larger proportions professor paul maier stephen sizer s work on christian zionism is the most important and comprehensive on the subject to date and should be read by all students of the middle east and by christians concerned about a just resolution to the palestinian israeli conflict christian zionism raises vital theological and political challenges that must be addressed head on by christians in the west particularly evangelicals the impact of this terribly misguided movement is increasingly putting christians in the middle east at risk and it seems a far cry from the witness and message of jesus christ dr donald wagner this study of christian zionism based on stephen sizer s doctoral thesis is of seminal significance it provides a fascinating survey of the history of christian zionism and an in depth analysis of the theology of this highly important and influential movement rabbi professor dan cohn sherbok

in walking on the pages of the word of god aron engberg explores the religious language and identities of evangelical volunteer workers in contemporary jerusalem the volunteers are connected to christian organizations which consider their work a natural consequence of the biblical promises to israel and their responsibility to bless the jewish people relying on ethnographic data of the discursive practices of the volunteers the book explores a central puzzle of zionist christianity the narrative production of israel s religious significance and its relationship to broader christian language traditions by focusing on the volunteers stories about themselves the land and the bible aron engberg offers a convincing account about how the state of israel is finding its way into evangelical identities

does the bible justify zionism since the foundation of the israeli state in 1948 torah and tank have become increasingly inseparable resulting in the forced expulsion and subjugation of millions of indigenous palestinians nur masalha s groundbreaking new book traces zionism s evolution from a secular settler movement in the late 19th century to the messianic faith it has become today he shows how the biblical language of chosen people and promised land has

been used by many christian and jewish zionists as the title deeds for israel justifying ethnic division and violence with edward said masalha argues that a new politics of peace can only be achieved through a single democratic state which replaces religious zealotry with secular equality

this text investigates the biblical justification for zionism charts the historical rise of zionism since its 19th century roots providing a contribution to the argument for a single democratic secular israeli state it shows how the biblical language of chosen people promised land is used to justify ethnic division violence

has god brought the jewish people back to palestine how can both jews and christians be god s chosen people how many covenants are there in the bible do all christian zionists accept dispensational teaching does the god of israel ever change his promises these are some of the questions that must be faced in the light of current attacks on christian zionism by some evangelical writers david pawson believes that christians need very clear biblical understanding before making political pronouncements about conflict in the middle east

jesus in an age of neoliberalism analyses the ideology underpinning contemporary scholarly and popular quests for the historical jesus focusing on cultural and political issues the book examines postmodernism multiculturalism and the liberal masking of power the study ranges across diverse topics the dubious periodisation of the quest for the historical jesus biblioblogging jesus the great man and western individualism image conscious jesus scholarship the jewishness of jesus and the multicultural other evangelical and mythical jesuses and the contradictions between personal beliefs and dominant ideological trends in the construction of historical jesuses jesus in an age of neoliberalism offers readers a radical revisioning of contemporary biblical studies

most observers explain evangelical christians bedrock support for israel as stemming from the apocalyptic belief that the jews must return to the holy land as a precondition for the second coming of christ but the real reasons argues stephen spector are far more complicated in evangelicals and israel spector delves deeply into the christian zionist movement mining information from original interviews web sites publications news reports survey research worship services and interfaith conferences to provide a surprising look at the sources of evangelical support for israel israel is god s prophetic clock for many evangelicals irrefutable proof that prophecy is true and coming to pass in our lifetime but spector goes beyond end times theology to find a complex set of motivations

behind israel evangelical relations these include the promise of god s blessing for those who bless the jews gratitude to jews for establishing the foundations of christianity remorse for the church s past anti semitism fear that god will judge the nations based on how they treated the jewish people and reliance on israel as the west s firewall against islamist terrorism spector explores many christian zionists hostility toward islam but also uncovers an unexpected pragmatism and flexibility concerning israel s possession of the entire holy land for evangelicals politics frequently mixes with faith yet spector argues that evangelical beliefs though often portrayed as unifying and rigid are in reality various and even contradictory spector uses george w bush s beliefs about the bible as a sounding board for these issues and explores the evangelical influence on his middle east policies evangelicals and israel corrects much of the speculation about bush s personal faith and about evangelicalism s impact on american middle east relations and provides the fullest and most nuanced account to date of the motives and theology behind christian zionism

is it feasible to speak of a moore school of biblical theology the biblical theology program at moore theological college can be traced back to donald robinson one unique contribution of robinson to moore s program was his distinction theology concerning the role of israel in redemption history as his attempt at providing an alternative to dispensationalism and covenant theology by examining robinson s view of jew and gentile in the new testament church the reciprocal role of the gospel going forth from jewish christians to the gentiles and back to unbelieving jews to fulfill the rom 11 promise so all israel shall be saved and robinson s eschatological concept of both jew and gentile forming a new man and by tracing how his view has been affirmed revised rejected or ignored by biblical theologians at moore college who were influenced by or who followed robinson including graeme goldsworthy lionel windsor d broughton knox and william dumbrell this book seeks to clarify the reception of robinson s legacy at moore college as well as offer an assessment on the plausibility of a distinct moore school of biblical theology

this exciting study explains how the abrahamic mosaic new and davidic covenants are interrelated and play a vital part in god s plan to redeem the world israel not only mediates these covenants for the world but the bible is clear that her calling is irrevocable and her work is not yet finished the error of replacement theology is exposed in this study of the great covenants of the bible

the story of the bible is the story of god s love for the world and his plan to redeem the world central to this story is the calling on the nation of israel it is
