night of the long knives a purge in the summer of 1934 that came about when hitler ordered the surprise executions of several dozen leaders of the sa this fanatically national socialist paramilitary organization had been a key instrument in overthrowing democratic government in germany and raising hitler to dictatorial power in the first place however the sa was an arm of the nazi phenomenon which had socialist leanings and which was the private army of ernst röh m which was enough for hitler to consider the organization dangerous röh m was a challenger to the fuhrer s position with his mushrooming sa ranks which were more loyal to him than to the nominal head of nazi germany europe s attempts to appease hitler most notably at munich in 1938 failed as nazi germany swallowed up austria and czechoslovakia by 1939 italy was on the march as well invading albania in april of 1939 the straw that broke the camel s back however was germany s invasion of poland on september 1 of that year two days later france and great britain declared war on germany and world war ii had begun in earnest in the wake of the war the european continent was devastated leaving the soviet union and the united states as uncontested superpowers this ushered in over 45 years of the cold war and a political alignment of western democracies against the communist soviet bloc that literally split berlin in two the rise and fall of the third reich the history and legacy of nazi germany under adolf hitler chronicles the rise and fall of the nazi regime
