in museums visitors are immediately drawn to striking or iconic objects but there are many less conspicuous but important items which illustrate cultural contexts and content and are equally deserving of their attention the authors of museums and silent objects offer a methodology for judging the quality of museum exhibitions from the visitor's perspective and offer practical tools for museum professionals to evaluate displays and design new galleries and exhibits fully illustrated and based on studies of world famous galleries this book is essential reading for those creating effective museum displays

today's multi-modal participatory exhibitions and attractions are bound by a desire to convey information excite the viewer and create social and narrative experiences without design at the helm and employed effectively these experiential moments would not become lasting memories that inform and inspire an increasingly sophisticated audience this full color illustrated handbook based on the author's research and expertise as an exhibition designer educator and critic is the first title to simultaneously explain how to design exhibitions and attractions successfully contextualize contemporary exhibition design practice through its historical and theoretical underpinnings elevate understanding of one of the most rapidly evolving and trans-disciplinary creative disciplines illuminate exhibition design's contributions to the expanding global market for civic cultural commercial and entertainment experiences and reframe the exhibition design process using a set of recurring tropes and the methods they employ making this book distinct from other practice-based museological or commercially driven titles this full color book with over 250 photographs and drawings uses real world examples museum and exhibition design studio profiles historical and contemporary voices and draw on the author's own creative practice and exhibition making experience as well as contributions from his extensive network of international museum attraction and design professionals the author introduces a new methodology for understanding exhibition and experience design one that elevates understanding of one of the most rapidly evolving and trans-disciplinary creative disciplines twelve easy to follow illustrated chapters introduce a set of reoccurring exhibition design conventions or tropes that are omnipresent in exhibition making and can be used to chart a new methodology for understanding exhibition design and its process

exhibitions as research contends that museums would be more attractive to both researchers and audiences if we consider exhibitions as knowledge in the making rather than platforms for disseminating already established insights analysing the theoretical underpinnings and practical challenges of such an approach the book questions whether it is possible to exhibit knowledge that is still in the making whilst also considering which concepts of

knowledge apply to such a format the book also considers what the role of audience might be if research is extended into the exhibition itself providing concrete case studies of projects where museum professionals have approached exhibition making as a knowledge generating process the book considers tools of application and the challenges that might emerge from pursuing such an approach theoretically the volume analyses the emergence of exhibitions as research as part of recent developments within materiality theories object oriented ontology and participatory approaches to exhibition making exhibitions as research will be of interest to academics and students engaged in the study of museology material culture anthropology and archaeology it will also appeal to museum professionals with an interest in current trends in exhibition making

all museum activities converge in the very public forum of the exhibition whether large or small exhibitions are responsible for driving museum attendance and revenue as well as showcasing new research and engaging audiences in new ideas as museums move from a transmission to a visitor centered model exhibitions are more experience driven participatory and interactive built around multiple perspectives and powerful storytelling the exhibition development process is more complex than ever as audiences demand more dynamic diverse and inclusive experiences museum leaders interpretive planners designers and curators are rising to the challenges in innovative ways this manual details the exhibition process in a straightforward way that can be easily adapted by institutions of any size it explores the exhibition planning and development process in a wealth of detail providing the technical and practical methodologies museum professionals need today this 3rd edition includes many new features and expanded chapters on evaluation virtual exhibitions multimedia travelling exhibition curiosity and motivation deai diversity equity accessibility and inclusion while retaining the essential content related to interpretive planning roles and responsibility and content development new and exciting case studies exhibition examples and more than 200 color photos and figures illustrate every step of the process no museum or museum professional can be without this critical guide to an essential function

great exhibits are never an accident planning effective exhibits is a demanding process that requires the designer to consider many different aspects and navigate numerous pitfalls while moving a project from concept to reality in museum exhibition planning and design elizabeth bogle offers a comprehensive introduction and reference to exhibition planning and design this book focuses on both the procedural elements of successful planning like the phases of exhibit design and all associated tasks and issues and on the design elements that make up the realized exhibit itself such as color light shape form space and building materials this helpful guide includes breakdown of the design and development project phases used by professional planner designers principles of good design as they pertain to color light shape form space line balance accent rhythm proportion and scale criteria to evaluate an exhibit and measure its success discussion of construction contracts and procedures discussion of building materials and their advantages and disadvantages glossary of museum and design terms for easy reference bogle has translated her years of experience as an exhibition planner into a guide for practitioners of all sizes and levels of experience for the solo practitioner perhaps working with limited or no staff in a small institution bogle walks through every task that will be faced as the project develops for the staff member of a larger institution or firm this book serves as a checklist reinforcing the instruction that comes from peers and previous experience museum exhibition planning and design is a useful tool for anyone interested in or involved in bringing their exhibits to life
