the damascus road encounter between jesus and paul is foundational to understanding the early development of christology and indeed christianity since it is the first appearance of the post ascension jesus contained in the earliest christian literature this study examines the encounter as it is described in paul s epistles and the book of acts since paul interprets his experience within the jewish tradition this study begins with a survey of epiphany texts in the old testament and other ancient jewish literature this reveals two new categories for appearances of god angels and other heavenly beings divine initiative and divine response this survey also finds two distinct patterns of characterization for god and other heavenly beings these findings are then applied to paul s accounts of his damascus road encounter paul depicts the encounter as a divine initiative epiphany this conclusion is significant since it argues against the current view that the encounter was a merkabah vision paul s christology in the damascus road encounter is also significant since jesus is characterized as divine such divine characterization is not typical for heavenly beings in first century ce epiphany texts thus a high pauline christology appears to be present at a very early point the three accounts of the damascus road encounter in acts also fit the pattern of divine initiative not merkabah and exhibit the high christology of paul s accounts in fact the three accounts in acts are shown to form an intentionally increasing sequence culminating in the revelation that paul was called to be an apostle by jesus himself on the damascus road

the bible is fundamental to western culture political philosophers from hobbes locke montesquieu and rousseau to modern political theorists such as george h sabine leo strauss and sheldon s wolin have drawn upon biblical examples american political leaders such as thomas paine abraham lincoln and william jennings bryan all drew heavily upon the bible today most contemporary politicians display less familiarity with scripture although many proudly proclaim themselves to be born again christians politics in the bible has a simple goal to help readers to think critically about how the bible illuminates understanding of justice leadership and politics for a political scientist there are great advantages to studying the bible students of the bible have short texts to analyze but they have a history of two thousand years of jewish and christian scholarly discussion in that tradition paul r abramson analyzes stories drawn from eighteen of the thirty nine books of the hebrew bible and fifteen of the twenty seven books of the new testament abramson argues that the bible is a book that should be read even by those who do not believe it has any transcendent significance one can choose to read it as the revealed word of god as a source of western morality as a compilation of interesting stories poetry and history or as a work of great literature although this book discusses selected stories that have political implications it also considers parts that have literary merit this unusual volume may stimulate new thinking about the bible as a source of insight into political ideas
