the blockbuster bestseller now in a manga edition fully illustrated and fun to read beautifully illustrated by kensuke okabayashi this enthralling edition of patrick lencioni s massive bestseller gives readers a new format in which to understand the fascinating complex world of teams kathryn petersen decision tech s ceo faces the ultimate leadership crisis uniting a team in such disarray that it threatens to bring down the entire company will she succeed will she be fired will the company fail lencioni s gripping tale serves as a timeless reminder that leadership requires as much courage as it does insight throughout the story lencioni reveals the five dysfunctions that go to the heart of why teams even the best ones often struggle he outlines a

powerful model and actionable steps that can be used to overcome these common hurdles and build a cohesive effective team this is a compelling fable with a powerful yet deceptively simple message for all those who strive to be exceptional leaders kensuke okabayashi jersey city nj is a working illustrator a graduate of the school of visual arts and an instructor at the educational alliance art school in new york city

classics and comics is the first book to explore the engagement of classics with the epitome of modern popular literature the comic book this volume collects fifteen articles all specially commissioned for this volume that look at how classical content is deployed in comics and reconfigured for a modern audience

focusing on the art and literary form of manga this volume examines the intercultural exchanges that have shaped manga during the twentieth century and how manga s culturalization is related to its globalization through contributions from leading scholars in the fields of comics and japanese culture it describes manga culture in two ways as a fundamentally hybrid culture comprised of both subcultures and transcultures and as an aesthetic culture which has eluded modernist notions of art originality and authorship the latter is demonstrated in a special focus on the best selling manga franchise naruto

there s no doubt about it while they may be stuck inside all day playing video games or spending their extra money on rare editions of comic books er graphic novels geeks are chic and why shouldn t they be geeks along with their close friends dorks and nerds run the world they re loyal as hell and their extreme passions are fascinating so how can women make them as passionate for their girlfriends as they are for star wars self proclaimed geek and geek lover carrie tucker expertly guides women into nerddom by categorizing and exposing men by their different geeky obsessions complete with a glossary for technical jargon helpful quotes from geek perts and illustrations of each nerd niche tucker will help women bring a relationship with a geek from in a galaxy far far away into reality

the history of manga is inextricably linked to the social economic political and cultural evolution of japan essential to the daily lives of its inhabitants and to its economy manga is one of the drivers of the international development of one of the world s largest economies discover over the pages and years the major events and artists who have marked the history of modern manga in this new updated and expanded edition

speed records investigates the fascinating intersection of sports science and japanese

manga exploring the reality of human speed versus its exaggerated depiction in popular series it examines how athletes push the boundaries of velocity in sports like running and swimming highlighting the physiological constraints and training techniques involved for example muscle fiber composition and neurological signals play critical roles in achieving peak speeds the book also delves into how manga artists visually represent superhuman speed often defying physical laws the book uniquely contrasts these two worlds revealing how cultural fascination with superhuman abilities influences artistic expression the investigation progresses systematically first establishing a scientific foundation of human speed then analyzing the portrayal of speed in manga and finally comparing the two to understand their cultural significance by examining athletic achievements and manga artistry speed records offers a fresh perspective on human potential and imagination appealing to both sports enthusiasts and manga fans

the classic text by renowned manga expert in a beautiful new casebound edition with a new foreword and afterword by the author this landmark book first published at the height of the manga boom is offered in a hardcover collector's edition with a new foreword and afterword frederik I schodt looks at the classic publications and artists who created modern manga including the magazines big comics and morning and artists like suehiro maruo and shigeru mizuki an entire chapter is devoted to osamu tezuka the new afterword shows how manga have evolved in the past decade to transform global visual culture

receptions of greek and roman antiquity in east asia is an interdisciplinary collaborative and global effort to examine the receptions of the western classical tradition in a cross cultural context the inclusion of modern east asia in classical reception studies not only allows scholars in the field to expand the scope of their scholarly inquiries but will also become a vital step toward transcending the meaning of greco roman tradition into a common legacy for all of human society

almost right from the introduction of baseball to japan the sport was regarded as qualitatively different from the original american model this vision of japanese baseball associates the sport with steadfast devotion magokoro and the values of the samurai class in the code of bushidō in which greatness is achieved through hard work under the tutelage of a selfless master in contesting the myths of samurai baseball keaveney analyzes the persistent appeal of such mythologizing arguing that the sport has been serving as a repository for traditional values to which the japanese have returned time and again in epochs of uncertainty and change baseball and

modern culture emerged and developed side by side in japan giving cultural representations of this national pastime special insights into japanese values and their contortions from the late nineteenth century to the present day keaveney explains the origins of the cultural construct samurai baseball and reflects on the recurrences of these essentialist discourses at critical junctures in japan s modern history since the early modern period writers filmmakers and manga artists have alternately affirmed and debunked these popular myths of baseball this study presents an overview of these cultural products beginning with masaoka shiki s pioneering baseball writings then moves on to the long history of baseball films and the venerable tradition of baseball fiction and finally considers the substantial body of baseball manga and anime perhaps what is most striking is the continuous relevance of baseball and its values as a point of cultural reference for the japanese people their engagement with baseball is a genuine national love affair a fascinating study of samurai baseball and the culture it represents viewed through historical and contemporary literature poetry manga and movies an important original work that is full of insights christopher keaveney has put enormous effort into researching this book and he is to be congratulated i learned a lot by reading it robert whiting author of you gotta have wa and the meaning of ichiro keaveney s book offers a nuanced introduction to the japanese model of samurai baseball along with an analysis of many of the works that treat the guiding principles of that model a fresh look at japan s national pastime bobby valentine former mlb player and manager and former manager of the chiba lotte marines of nippon professional baseball christopher keaveney effortlessly combines a thorough knowledge of japanese baseball its players managers fans with the cultural productions surrounding it the result is a nostalgic trip through history and an edifying survey of literature film and manga david desser professor emeritus university of illinois at urbana champaign

this authoritative and innovative volume explores the place of shakespeare in relation to a wide range of artistic practices and activities past and present

despite the longevity of animation and its significance within the history of cinema film theorists have focused on live action motion pictures and largely ignored hand drawn and computer generated movies thomas lamarre contends that the history techniques and complex visual language of animation particularly japanese animation demands serious and sustained engagement and in the anime machine he lays the foundation for a new critical theory for reading japanese animation showing how anime fundamentally differs from other visual media the anime machine defines the

visual characteristics of anime and the meanings generated by those specifically animetic effects the multiplanar image the distributive field of vision exploded projection modulation and other techniques of character animation through close analysis of major films and television series studios animators and directors as well as japanese theories of animation lamarre first addresses the technology of anime the cells on which the images are drawn the animation stand at which the animator works the layers of drawings in a frame the techniques of drawing and blurring lines how characters are made to move he then examines foundational works of anime including the films and television series of miyazaki hayao and anno hideaki the multimedia art of murakami takashi and clamp s manga and anime adaptations to illuminate the profound connections between animators characters spectators and technology working at the intersection of the philosophy of technology and the history of thought lamarre explores how anime and its related media entail material orientations and demonstrates concretely how the animetic machine encourages a specific approach to thinking about technology and opens new ways for understanding our place in the technologized world around us

a fascinating illustrated look at various forms of japanese popular culture pop song jazz enka a popular ballad genre of music karaoke comics animated cartoons video games television dramas films and idols teenage singers and actors as pop culture not only entertains but is also a reflection of society the book is also about japan itself its similarities and differences with the rest of the world and how japan is changing the book features 32 pages of manga plus 50 additional photos illustrations and shorter comic samples

capture japan investigates the formation of visual tropes and how these have contributed to perceptions of japan in the global imagination the book proposes that images are not incidental in the formation of such perceptions but central to notions about identity history and memory from a tentative western ally in 1952 to a soft power superpower with a huge global influence in the 21st century the book locates questions about japan in the global imagination to the country s transforming geopolitical position by adopting an interdisciplinary approach with a multiplicity of perspectives from around the world capture japan goes beyond binarisms to uncover how images can also produce discourses that challenge subvert or even contradict each other the word capture in the title of the book recognises both the deeply problematic role that images have played in relation to colonialism as well as the potential dominance that visual spectacles can wield in a contemporary context

diverse essays from a wide range of perspectives investigate the institutional framework that has allowed certain types of images of japan to be promoted while others have been suppressed in doing so the book points to a vast network of images that have shaped the perception of japan both from within and from outside revealing how these images are inextricably linked to wider ideological political cultural or economic agendas

outside japan the term manga usually refers to comics originally published in japan yet nowadays many publications labelled manga are not translations of japanese works but rather have been wholly conceived and created elsewhere these comics although often derided and dismissed as fake manga represent an important but understudied global cultural phenomenon which controversially may even point to a future of japanese comics without japan this book takes seriously the political economy and cultural production of this so called global manga produced throughout the americas europe and asia and explores the conditions under which it arises and flourishes what counts as manga and who gets to decide the implications of global manga for contemporary economies of cultural and creative labour the ways in which it is shaped by or mixes with local cultural forms and contexts and ultimately what it means for manga to be authentically japanese in the first place presenting new empirical research on the production of global manga culture from scholars across the humanities and social sciences as well as first person pieces and historical overviews written by global manga artists and industry insiders global manga will appeal to scholars of cultural and media studies japanese studies and popular and visual culture

survival instincts explores how action manga often classified in the adventure and sports genres can offer surprising insights into real world survival and human endurance it examines the portrayal of survival skills in manga narratives comparing them to established wilderness training protocols and analyzes how these stories build tension around challenges of human endurance juxtaposing them with documented cases interestingly manga creators often research real world survival methods drawing inspiration from diverse sources the book offers a unique perspective by treating manga as cultural texts that engage with real world concerns it unfolds by first introducing core concepts of wilderness training and survival psychology it then explores how specific survival skills are depicted in manga comparing them to established protocols and analyzes endurance challenges finally it addresses the implications of these narratives considering how they shape our

understanding of human potential and our approach to risk and resilience this approach enables readers to critically assess the potential value found within a popular medium

night vision explores the science and art of seeing in the dark examining how humans and animals perceive low light environments and how manga artists interpret and exaggerate this ability the book uniquely bridges the gap between scientific analysis and artistic expression revealing how understanding vision science informs our interpretation of visual storytelling did you know that the size of an animal's pupils directly impacts how well it can see in the dark or that the rod cone system in our eyes plays a pivotal role in light perception the book begins by introducing the basic concepts of vision and the physiological adaptations that enable night vision such as pupillary dilation and the function of photoreceptor cells from there it explores the diversity of night vision capabilities across the animal kingdom highlighting evolutionary adaptations in creatures like owls and cats finally it analyzes how night vision is represented in manga focusing on artistic techniques used to depict darkness and enhanced vision by connecting fields like biology art and media studies night vision provides a comprehensive understanding of how we perceive and represent the world around us it is valuable to students researchers and anyone interested in the intersection of science nature and visual culture

a comprehensive english language history of a beloved medium manga's first century tells the story of the artists and fans who built a cultural juggernaut manga is the world's most popular style of comics how did manga and anime moving manga become ubiquitous manga's first century delves into the history and finds surprising answers in fact manga has always been a global phenomenon countering essentialist myths of manga's emergence from the deepest wells of japanese art author andrea horbinski shows it was born in the early 1900s a hybrid form that crossed single panel satirical cartoons popular in europe and america with the edo period's artistic legacy as a medium manga initially focused on political commentary expanding to include social satire children's comics and proletarian art in the 1920s and 1930s manga's evolution into a medium embracing complex long form storytelling was likewise driven by creators and fans pushing publishers to accept new radical expansions in manga's artistic and narrative practices in the 1970s innovative creators and fans empowered a new breed of fan generated comics *dōjinshi* and established robust audiences of adult female and queer manga readers while nurturing generations of amateur and professional creators who continue to enrich and renew manga today

climbing challenges explores the captivating world of mountaineering merging the real life challenges of conquering towering peaks with their dramatic portrayal in action manga it delves into the technical skills vital for survival at high altitudes such as mastering rope work and navigating treacherous icefalls while also confronting the inherent dangers like avalanches and altitude sickness interestingly the book highlights how mountaineering's blend of skill risk and human limits makes it a compelling subject for manga narratives amplifying both the sport's intensity and its artistic representation the book carefully examines the historical evolution of mountaineering alongside scientific research on high altitude physiology and weather patterns progressing through the chapters climbing challenges builds from basic climbing techniques to the portrayal of these elements in action manga this approach allows readers to appreciate the artistic license in manga and gain a deeper understanding of the psychological drives that compel individuals to take on such adventure sports unique in its approach the book bridges the gap between real world mountaineering and its depiction in manga by providing a fresh perspective it offers insight for outdoor enthusiasts and manga readers alike it's an exploration of the unique combination of skill risk and the profound confrontation with human limits when facing mountain dangers
