alloysius bertrand s *Gaspard de la nuit* 1842 is a familiar title to music lovers thanks to ravel s piano work of the same name and to specialists of french literature especially those interested in baudelaire s prose poetry yet until very recently the collection and its author have generally been viewed almost exclusively through the prism of their pioneering role in the development of the prose poem by placing bertrand back in his original context adopting a comparative approach and engaging with recent critical work on the collection valentina gosetti proposes a substantial reassessment of *Gaspard de la nuit* and promotes a new understanding of bertrand in his own terms rather than those of his successors through his playful and ironic reinterpretation of romantic clichés and his overt defiance of the boundaries of poetry and beauty bertrand emerges as a fascinating figure in his own right this book is one of the first full length studies of bertrand s work and it will be of

particular interest to specialists of the nineteenth century and of provincial literature and to students of nineteenth century poetry or the fantastic
