from breasts and orgasms to periods pregnancies and menopause a brief history of the female body is a fascinating science book explaining the mysteries of the female body through an evolutionary lens let s face it the female body is an enigma for teenagers first experiencing their periods the monthly arrival of mood swings and cramps can be agonizing and inconvenient with pregnancy perhaps the most miraculous of bodily events comes countless potential complications including high blood pressure diabetes premature birth and postpartum depression and menopause is equally mystifying why do females lose their fertility over time and experience the notorious side effects like hot flashes weight gain and hair loss while males maintain their fertility forever evolutionary geneticist and educator dr deena emera has spent

much of her career studying the evolution of female reproduction a brief history of the female body draws on her vast expertise as a biologist her experience as a mother of four children and her love of teaching to look far into our evolutionary past illuminating how and more importantly why the female form has transformed over millions of years and its effects on women s health

drawing on a range of texts from the seventeenth century to the present the female body in medicine and literature explores accounts of motherhood fertility and clinical procedures for what they have to tell us about the development of women s medicine the essays here offer nuanced historical analyses of subjects that have received little critical attention including the relationship between gynecology and psychology and the influence of popular art forms on so called women s science prior to the twenty first century taken together these essays offer a wealth of insight into the medical treatment of women and will appeal to scholars in gender studies literature and the history of medicine

seeing her sex questions how the visual representation of women has been used to remove women s bodies from varying discourses especially in relation to the matter of generation and reproduction

drawing on the ambiguous meaning of the notion of vulnerability the book offers an innovative approach to the topic of the female body in relation to women s rights going beyond the age old dichotomy of casting women as either passive victims or conscious agents

the female body in mind introduces new ways of thinking about issues of women s mental health assessment and treatment its multidisciplinary approach incorporates social psychological biological and philosophical perspectives on the female body the contributions from notable academics in the field of women s mental health examine the relationship between women s bodies society and culture demonstrating how the body has become a platform for women s expression of their distress and anguish the book is divided into six sections all centred on the theme of the body covering the body at risk the hurting body the reproductive body the interactive body body sensitive therapies the body on my mind all professionals involved in women s mental health will welcome this exploration of the complexities involved in the relationship between women bodies and their mental health

first published in 1989 the psychology of the female body examines the role of the female body in women s identity and experience she discusses how key events such as menarche menstruation pregnancy and the menopause affect women s lives and looks at the ways in which the female body and reproduction have been used to confine and control women she puts forward psychological evidence to refute many of the myths surrounding women s bodies

highlighting how empirical evidence shows that contrary to what stereotypes suggest women are not victims of their biology this book will be of interest to students of psychology sociology gender studies and women s studies

reflective essays on women s appearance by anthropologists poets psychologists artists and historians back cover

the female body in mind introduces new ways of thinking about issues of women s mental health assessment and treatment its multidisciplinary approach incorporates social psychological biological and philosophical perspectives on the female body the contributions from notable academics in the field of women s mental health examine the relationship between women s bodies society and culture demonstrating how the body has become a platform for women s expression of their distress and anguish the book is divided into six sections all centred on the theme of the body covering the body at risk the hurting body the reproductive body the interactive body body sensitive therapies the body on my mind all professionals involved in women s mental health will welcome this exploration of the complexities involved in the relationship between women bodies and their mental health

postcolonial hauntologies is an interdisciplinary and comparative analysis of critical literary visual and performance texts by women from different parts of africa while contemporary critical thought and feminist theory have largely integrated the sexual female body into their disciplines colonial representations of african women s sexuality haunt contemporary postcolonial african scholarship which by maintaining a culture of avoidance about women s sexuality generates a discursive conscription that ultimately holds the female body hostage ayo a coly employs the concept of hauntology and ghostly matters to formulate an explicative framework in which to examine postcolonial silences surrounding the african female body as well as a theoretical framework for discerning the elusive and cautious presences of female sexuality in the texts of african women in illuminating the pervasive silence about the sexual female body in postcolonial african scholarship postcolonial hauntologies challenges hostile responses to critical and artistic voices that suggest the african female body represents sacred ideological discursive ground on which one treads carefully if at all coly demonstrates how ghosts from the colonial past are countered by discursive engagements with explicit representations of women s sexuality and bodies that emphasize african women s power and autonomy

in turkey the justice and development party government has introduced new regulations about reproductive rights and shifted family and gender policies women s central role in reproductive and domestic work was swiftly reaffirmed and abortion and ivf were newly debated taking turkey as the case study this is the first book to examine the various ways neoliberal modes of

governing women's bodies interact with conservative and authoritarian measures the contributions focus on reproduction maternity and sexuality to explore the three main areas of governmental interventions into the female body topics for discussion include the expansion of ivf and egg markets the privatization of gynaecological and obstetrical care differential treatment of poor and ethnic minority women's fertility sexuality and women's multiple responses to these shifts while focusing on turkey the book presents analytical tools applicable under rising authoritarianisms and conservatism worldwide

the story about a body in continuous transformation this book unravels the mystery surrounding women's biology and explains what is happening underneath the surface we all know that the female body changes cyclically every month during the reproductive years and that it completely transforms during puberty pregnancy and menopause however most of us ignore the fascinating details what triggers those changes and what are the sometimes unexpected consequences the facts are as mind blowing as entertaining based on the latest research all information is presented in an easy to read manner with plenty of anecdotes from historical prejudices to personal experiences with some evolutionary ideas in between

presents clearly explained authoritative information for women on how to prevent disease and what steps to take to heal themselves including tips and advice about fertility pregnancy menopause nutrition weight loss and body toning

drawing on foucault's notion of governmentality this collection explores relations between the intimate governance of bodies and political governance the contributors offer empirically grounded yet theoretically sophisticated case studies showing how gendered racialized and socioeconomic agendas structure medical and scientific practices developing and utilizing a poststructuralist feminist framework the chapters investigate emerging gendered discourses and practices around health such as breast cancer charities lifestyle genetic testing new reproductive technologies and the development and marketing of various psychotropic and hormonal drugs this will be a key reader for anyone interested in the social implications of cutting edge medical technologies

throughout the ages the female body has been enshrined as an aesthetic object associated with nature sin and danger this collection of essays covers a range of topics related to the female body

far too many women view their bodies as failures never realizing the power contained within them this book speaks to the inherent power within a woman's body so that she may reclaim this space

a vibrant history of women's bodies expertise and work from a major new writer stylish revelatory and liberating today we understand the mind and the body to be distinct that the mind exercises control over the flesh but as erin maglaque experienced the transformations of pregnancy abortion birth and care giving she began to doubt the truth of that dichotomy in an effort to better understand her experiences she found herself reaching to the premodern past a period when the strange rubbed up against the strikingly recognizable when people accepted both levitation and the smallpox vaccine witchcraft and universal gravitation a time when understandings of the body and its capacity for thought were more expansive and more unruly structured as a biography of the author's own body from girlhood and adolescence to sex and abortion to feeding and caring for an infant to her experience caring for someone as they were dying erin places her personal history into a deep dialogue with the premodern past she explores the relation between imagination and gender between maternal and historical subjectivity she positions female desire as a practice with a past and offers gentler and more forgiving understandings of housekeeping pregnancy early miscarriage abortion birth sleeplessness and breastfeeding for readers of amia srinivasan's the right to sex cat bohannon's eve and olivia laing's everybody presence is a unique experiment in historical thinking and embodied knowledge a thoroughly researched vibrant history of women's bodies expertise and work from a major new writer

with salammbo flaubert turned to the old orient and carthage's civil war with its mercenaries to relive his travels in the levant and indulge in erotic and heroic reveries yet his alluring heroine gives way to political and military matter
