the linguistics and language education world has recently experienced a rapidly proliferating interest in applying technology this interdisciplinary area bridges the gap between two

previously separate fields innovations and applications of technology in language education is a collection of 12 chapters by an international group of language and linguistics education experts although technology in language education is a global interest its practices should be contextualized this book covers how language educational technology is currently applied discusses how it should be applied and gives directions for its future development providing a critical review of respective current practices and perspectives this book begins by presenting a set of research based principles for developing second language teachers professionalism it then examines the use of technology to enhance students english language skills acknowledging the advantages and disadvantages of ai mediated communication this book argues for the use of ai to facilitate communication in language education it also proposes the use of ai to develop and administer language tests and suggests guidelines for practitioners to deploy ai in developing and administering language tests efficiently this book concludes by discussing technology for specific purposes in second language education and the potential of computer mediated communication cmc to enhance interaction between students

long before they can make any sounds approaching language infants can share in communication though what this means is the subject of much scrutiny this 1979 volume deliberately draws on people whose different backgrounds have brought them to explore questions that have a bearing on communication in this earliest phase of human infancy this is then as dr bullowa says in her introduction primarily a book about how scientists go about finding out how infants and adults communicate with one another it is nowhere dogmatic contributors have all been encouraged to say why they came to do the research reported how they set about it and what they discovered dr bullowa herself provides a useful introduction which makes its own substantial contribution while surveying the broad context of the particular research discussing some of the themes that recur in the book and relating them to the wider literature
