since the beginning of the economic crisis of the 1980s considerable research has
been dedicated to the study of the unemployment problem nevertheless the
phenomenon has not become fully understood nor are its consequences
adequately prevented in this important new volume on the mysteries of
unemployment economists and social scientists come together to offer the reader
the latest insights on unemployment and policies regarding unemployment from
the perspectives of both disciplines on the mysteries of unemployment contains
four main sections part one provides an introductory chapter and general
overview part two contains rich contributions that provide new insights from an
economic science perspective while part three offers a balanced view from social
scientists the final section is devoted to the examination of policy issues
concerning unemployment this volume unique in its field will be of interest to
researchers students politicians and policy makers

this outstanding study examines the origin and philosophy of egyptian rituals their
transplantation to other cultures and their surviving vestiges among the topics

as the christian church moved from its inception in an eastern oriental culture

westward across asia minor turkey into greco roman culture with primarily a western philosophy theology and values jesus message and paul s teachings began to be interpreted according to those cultural norms while paul kept calling his churches back to their jewish roots and eastern values the jewish voice was lost when the jerusalem church dispersed as israel fell during the jewish revolt of 66 73 ad the temple was destroyed its clergy silenced and judaism seemed irrelevant to the growing christian church the church had become primarily gentile in theology and philosophy and its hebrew foundation was largely forgotten and lost in beyond christian folk religion beckstrom brings the reader back to jesus roots romans 11 17 23 and to the core of paul s message

in a concise study rudolf steiner presents an inspirational sketch of the evolution of the mysteries from ancient persia through egypt and greece to the christian era and the present day he traces the line of initiates from egyptian divinities isis and osiris to mooses king arthur s round table and the holy grail in the twelfth century steiner focuses on the process of initiation as a historical topic how initiation worked in ancient egypt and in the late middle ages but his presentation is also inspirational leading to the question how can we advance to initiation now he underscores the potential for achieving enlightenment today without a teacher in the flesh and explains the four stages of the process towards initiation he also highlights the need for strenuous efforts to overcome the subtle power of evil in the form of lucifer and ahriman through selfless work the four lectures collected here form an important landmark in rudolf steiner s biography the first being delivered on 3 february 1913 the very day that the anthroposophical society was founded first published in english under the title the mysteries of the east and of christianity and unavailable for many years this edition has been re edited by professor frederick amrine and features appendices an index as well as an introduction by robert mcdermott

the mysteries of christianity is matthias joseph scheeben s youthful magnum opus a logically rigorous and spiritually profound dogmatic theology in its pages he

explores the intelligibility of christianity s supernatural mysteries and their deep connectedness ultimately demonstrating that christian theology constitutes a science before the court of human reason even as its object transcends human comprehension scheeben s task is to present a unified view of the whole panorama of revealed truth and he pursues this by considering nine key christian mysteries the trinity creation sin the incarnation the eucharist the church and its sacraments justification eschatological glory and predestination since the mystery of the trinity is the root of the supernatural order scheeben begins here showing that the foundation of the salvific economy lies in the eternal processions of persons in god the begetting of the son and the spiration of the spirit being in different ways the cause of the life of grace in the human soul when the son and the spirit are sent into the world in the incarnation and through the bestowal of grace they provide the way for human beings to see god face to face in the beatific vision the end for which god created humans among the means of return to god scheeben particularly emphasizes the eucharist on account of its close connection with the mystery of the incarnation by placing his treatment of the eucharist before that of the church he signals that his is a genuinely eucharistic ecclesiology centered on the abiding presence of the incarnate divine son

the extent of fiscal transparency in western europe has varied over the centuries although ancient greek roman and medieval governments were sometimes open about their finances the absolute monarchies of the 1600s and 1700s shrouded them in mystery factors that have encouraged transparency include i the sharing of political power and rulers need to persuade creditors to lend and taxpayers representatives to approve new taxes ii the spread of technological innovations that reduce the costs of storing and transmitting information and iii the acceptance of political theories that emphasize accountable government and public discussion of government policy

outsold only by the bible and shakespeare the works of agatha christie stand as some of the most celebrated crime fiction of our era this book takes ten of her

most famous works and shows their relationship to ten of crime history s most famous and sensational cases cases whose notoriety still resounds to this day addressing both novels and short stories the author illuminates the relationship between christie s murder on the orient express and the sensational lindbergh kidnapping case of 1932 the connections between christie s mrs mcginty s dead and the horrific true case of england s most loathed wife killer the american dr hawley harvey crippe and eight more engrossing pairings of christie s ingenious mystery puzzles with vintage true crime s most sensational events

the ancient mysteries have long attracted the interest of scholars an interest that goes back at least to the time of the reformation after a period of interest around the turn of the twentieth century recent decades have seen an important study of walter burkert 1987 yet his thematic approach makes it hard to see how the actual initiation into the mysteries took place to do precisely that is the aim of this book it gives a thick description of the major mysteries not only of the famous eleusinian mysteries but also those located at the interface of greece and anatolia the mysteries of samothrace imbros and lemnos as well as those of the corybants it then proceeds to look at the orphic bacchic mysteries which have

become increasingly better understood due to the many discoveries of new texts in the recent times having looked at classical greece we move on to the roman empire where we study not only the lesser mysteries which we know especially from pausanias but also the new ones of isis and mithras we conclude our book with a discussion of the possible influence of the mysteries on emerging christianity its detailed references and up to date bibliography will make this book indispensable for any scholar interested in the mysteries and ancient religion but also for those scholars who work on initiation or esoteric rituals which were often inspired by the ancient mysteries
