in a scholarly edition of samuel p newman's *A Practical System of Rhetoric* beth l. hewett argues that newman an american nineteenth century rhetorician has been unfairly judged by criteria disconnected from his goals and accomplishments his exceptionally popular textbook is important for how he engaged received theory fit practice to the era struggled with age old questions of thought and language and spoke to his readers he operationalized the concept of taste giving it functionality for invention and inflected belletrism with american illustrations suited to the nascent uniquely american communicative requirements of a democracy hewett's modern scholarly edition contextualizes this book as the

serious work of a scholar educator demonstrating its values in the context of nineteenth century american rhetorical and textbook history
