assessment and intervention with mothers and partners following child sexual abuse provides child protection professionals with the guidance they need to make the right decisions in cases of suspected or proven sexual abuse and ensure the best outcome for the child. Assessments and interventions used for other forms of abuse such as physical abuse or neglect elicit a great deal of information but do not fully address the issues and needs in relation to child sexual abuse. This book lays out a new model for understanding assessing and working with mothers of sexually abused children or partners of known or suspected sexual offenders. A model which combines offender knowledge with understanding of mothers and partners. It is structured around the following central critical questions: Did she know it was happening? Is she able to protect the child? What do I need to do to ensure that the child is safe? Combining research and empirical evidence with case studies, exercises and practical guidance, this book is essential reading for child protection professionals working with children and families.

There is no question that Americans are bitterly divided by politics, but in *Partisans and Partners*, Josh Pacewicz finds that our traditional understanding of red/blue, right/left, urban/rural division is too simplistic. Wheels down in Iowa, the most important of primary states, Pacewicz looks to two cities: one traditionally Democratic, the other traditionally Republican, and finds that younger voters are rejecting older timers' strict political affiliations. A paradox is emerging as the dividing lines between America's political parties have sharpened: Americans are at the same time growing distrustful of traditional party politics in favor of becoming apolitical or embracing outside-the-beltway candidates. Pacewicz sees this change coming not from politicians and voters but from the fundamental reorganization of the community institutions in which political parties have traditionally been rooted. Weaving together major themes in American political history, including

globalization the decline of organized labor loss of locally owned industries uneven economic development and the emergence of grassroots populist movements partisans and partners is a timely and comprehensive analysis of american politics as it happens on the ground
