mainland china businesses are going global transforming the country from a manufacturing export platform into an overseas investment powerhouse china goes global is the most thorough and up to date empirical analysis of the accelerating effort of

chinese companies to go global by investing overseas it details the overall trends of this activity with respect to its sectors channels overseas targets and particular firms along the role of chinese government policy in facilitating business enterprise globalization the book offers readers an enterprise level of view outward expansion by chinese firms that is focused not only on the big names but also less well known but equally important trailblazing enterprises in doing so it offers practical suggestions on how firms can tackle the challenges encountered when expanding outward

eminent china scholar david shambaugh s china goes global is the sweeping synthesis of that nation s growing prominence on the world stage that we have been waiting for thirty years ago china s role in global affairs beyond its immediate east asian periphery was decidedly minor its military was extremely weak and it had little geostrategic power as shambaugh charts though china s expanding economic power has allowed it extend its reach and influence virtually everywhere after establishing the main precondition the astounding growth of the chinese economy shambaugh turns his focus to the manifestations of china s global ambitions its growing military power characterized best by its current pursuit of a blue water navy its increasing cultural influence i e soft power and its new prominence in global governance institutions like the g 20 he is no alarmist however rather he will draw on his extremely deep knowledge of the subject to offer a balanced and well reasoned account of where china is now and where he thinks it is headed

women who migrate into domestic labour and care work are the single largest female occupational group migrating globally at present their participation in global migration systems has been acknowledged but remains under theorized specifically the impacts of women migrating into care work in the receiving as well as the sending societies are profound altering gendered aspects of both societies we know that migration systems link the women who migrate and the households and organizations that employ domestic and care workers but how do these migration systems work and more importantly what are their impacts on the sending as well as the receiving societies how do sending and receiving societies regulate women s migration for care work and how do these labour market exchanges take place how is reproductive labour changed in the receiving society when it is done by women who are subject to multifaceted othering racializing processes a must buy acquisition when care work goes global will be an extremely

valuable addition for course adoption in migration labour and gender courses taught in sociology anthropology geography women s studies area studies and international development studies

as many economies around the world are growing rapidly and numerous organizations are expanding their international operations job seekers who want to take advantage of the globalization wave can start building a successful career today go global is the go to resource that reveals how students and young professionals can tackle this exciting yet daunting challenge of developing the necessary skills to identify and land a job in a world that has become increasingly interconnected and global in the past decade

international monetary reform is of vital importance to the countries of the world although many studies have been made of the structure and problems of the international payment mechanism few provide an analytical survey of the international monetary system this study analyzes the structural and operational limitations of past systems as well as the major reform proposals for modifying and or replacing the current system with a new payment mechanism the authors describe the structure and nature of the international payment system and identify the issues relating to international adjustment liquidity and confidence they discuss the nature of international liquidity including liquidity s purpose sources of demand and supply and potential shortcomings they analyze the theoretical and empirical implications of the gold standard of primary concern is the extent to which the actual operations of the system corresponded to the theoretical role of the gold standard and the nature and limitations of the so called dollar gold system that prevailed in the past quarter century until 1971 the major reform proposals of the international payment mechanism are next discussed included are the proposals of historical interest such as keynes triffin bernstein stamp angell rueff and the currently debated issues of the special drawing rights standard freely floating exchange rates and the wider band and crawling pegged exchange rate mechanisms finally the authors analyze the nature operation and future role of the managed float exchange rate system which resulted from the international monetary crisis of 1973 of particular interest are the effects of the organization of petroleum exporting countries opec cartel on the u s dollar as a reserve currency and the monetary effects of the cartel s balance of payments surplus on the world financial markets this study provides the historical background the institutional framework and a balanced analysis of problems involved in the international monetary system it will be of interest to all students of economics and

finance and should be read by anyone wishing to understand the world of ever expanding trade
