this fourth edition has been wholly rewritten and restructured while retaining its wealth of information about the founding figures of sociology it also includes much new material on contemporary social theory and particularly the challenge to sociology posed by the rise of post structuralism with its questioning of the whole enlightenment project new features include a concise introduction to the major debates of the twentieth century information on thinkers of the nineteenth and early twentieth century whose relevance to modern social thought is only now being recognised e g nietszche saussure simmel key debates placed in historical and philosophical context connections drawn between post structuralist thinkers like foucault and derrida and the founding figures of sociology marx weber and durkheim easy to read format four wholly new chapters tracing developments in social theory from structuralism to postmodernism

from its first edition in 1979 perspectives in sociology has provided generations of undergraduates with a clear reassuring introduction to the complications of sociological theory this revised and updated edition features a completely rewritten general introduction and conclusion all new introductions to each part clarifying how each one builds on what came before an updated set of formative questions at the end of each chapter a comprehensive glossary of key terms while retaining its emphasis and wealth of information on the founding figures of sociology this sixth

edition includes new tools that will allow students from related disciplines to access relevant sociological material quickly

original scholarly monograph

in an era when rapid social change the disappearance of traditional communities the rise of political populism and the threat posed by radical religious movements makes it appear that all that is solid melts into air the classical sociological problem of how peaceable societies can be created and maintained assumes renewed urgency uncovering social life critical perspectives from sociology explores how contemporary institutional changes erode existing social relationships and identities but also create space for opposition to or creative adaptation of these broader shifts exploring the threats and opportunities associated with the contemporary age this book identifies how sociology helps us understand the problems associated with social order and change before focusing on the most important institutional transformations to have occurred in bodies and health sex gender and sexuality employment finance the internet and new social media technology and artificial intelligence religion governance and terrorism after a critical introduction placing these issues in their historical and sociological context theoretical chapters analysing how sociology views the individual society relationship and the volatile processes endemic to the modern era provide an innovative and comprehensive context for these explorations this book provides a clear and engaging account of social life covering a broad range of sociological topics the diverse chapters are united in a concern with three major themes the growing complexity of the current era and the doubled identities with which it is associated the opportunities and constraints such developments pose to different groups and the capacity of institutional changes to both erode existing social relationships and create space for the emergence of new collective identities that oppose these structural shifts

first published in 2004 the subject of this text is modern accountancy which is to be considered from a sociological perspective the logical starting point is to map out the chosen subject modern accountancy before saying something about the particular disciplinary perspective sociology from which it is to be viewed the volume is split into two parts the sociology of accountancy and sociology for accounting

the term society is the most fundamental one in sociology it is used in very wide sense in common parlance the society is to refer to members of specific groups for example we speak of harijan society teacher s society and students society and the like similarly the word is used to refer to some specific institution like brahma samaj arya samaj etc but in sociology the term society refers not to group of people but to the complex pattern of the norms of interaction that arise among them people are only the agents of social relationship they are regarded as things a society is intangible it is a process rather than a thing motion rather than structure society is a web of social relationships the pattern of norms of interaction by which the members of the society maintain themselves

building upon the success of previous editions this fully revised edition of sociology lays the foundations for understanding sociology in australia the depth and breadth of the book ensures its value not only for first year students but for sociology majors requiring on going reference to a range of theoretical perspectives and current debates this fifth australian edition continues to build on the book s reputation for coverage clarity and content drawing upon the work of leading australian sociologists as well as engaging with global social trends and sociological developments

questions about who we are who we can be and who is like and unlike us underpin a vast range of contemporary social issues what makes our families so important to us what do the often stark differences between how we self identify and the way others see and define us reveal about our social world why do we attach such significance to being ourselves in this new edition of her popular and inviting introduction steph lawler examines a range of important debates about identity taking a sociological perspective she shows how identity is produced and embedded in social relatio

social problems such as unemployment poverty and drug addiction are a fact of life in industrialised societies this book examines the sociology of social problems from interesting and challenging perspectives it analyses how social problems emerge and are defined as such who takes responsibility for them who is threatened by them and how they are managed solved or ignored the authors examine and critique existing theories of social problems before developing their own theoretical framework their theory of residualist conversion of social problems explains how certain social problems threaten legitimate power structures so that problems of a social or political nature are transformed into personal problems and the helping professions are left to intervene this book will become a key reference on class inequality and social intervention and an important text for students in sociology and social work courses

religion in sociological perspective is an introduction to the sociology of religion core text designed to present and illustrate the basic theories sociologists use to understand the social dimensions of religion first and foremost the authors seek to help students understand the perspective from which sociologists view religion by the time students have finished this book they should understand the central theories and methods of research in the sociology of religion and they should have an idea of how to apply these analytical tools to new groups they encounter the goal of this text is to be illustrative rather than all encompassing the fifth edition continues to draw on a wide range of perspectives the text aims to help students recognize the contributions of various theoretical perspectives and the blind spots of each theory conflict functional social constructionist and rational choice paradigms are used throughout the text various middle range theories are also utilized to explore specific processes despite the effort to introduce many perspectives however we have made an effort to enhance integration of the text by using one framework throughout the book the open systems model

the second edition of ken browne s highly successful introducing sociology for as level provides in depth and up to date coverage of the complete specification for aqa as level sociology the first edition of this book was widely praised for its comprehensive coverage and student friendly style in this second edition all of the chapters have been revised to include new studies reports and statistics key sociological terms are now systematically highlighted all the way through the book and included in a comprehensive glossary with fresh questions and activities added to develop and test students understanding further fuller consideration of issues of identity has been given throughout the text more detailed advice has been provided on coursework including a top mark example to show students exactly what they have to do to achieve the highest grades what s more two authentic exam questions are now included on every topic pitched at exactly the right level for as sociology the book provides all the tools necessary to help students achieve top grades and a sound basis for progression to a2 a host of cartoons photographs graphs tables and spider diagrams help to enliven the text as well as reinforcing key issues sites and web based activities are included throughout encouraging students to engage with the most recent social changes and developments in sociology

although it assumes no previous knowledge of sociology its dedicated and in depth coverage of all the aqa s as topics provides a useful reference tool for the synoptic elements at a2 the second edition of introducing sociology for as level combines sociological rigour and accessibility in a way unrivalled by any other book at this level it will be an invaluable resource to anyone following the aqa specifications

comprehensive and engaging this textbook introduces students not only to foundational sociological work but also to insights from contemporary sociological theory and research this combined approach ensures that students become familiar with the core of sociology key concepts theories perspectives methods and findings students will acquire the ability to think like a sociologist investigate and understand complex social phenomena this text presents a complete sociological toolkit guiding students in the art of asking good sociological questions devising a sophisticated theory and developing methodologies to observe social phenomena the chapters of this book build cumulatively to equip students with the tools to quickly understand any new sociological topic or contemporary social problem the textbook also applies the sociological toolkit to selected key sociological issues showing how specific sociological topics can be easily investigated and understood using this approach taking a global and comparative perspective the book covers a rich diversity of sociological topics and social problems such as crime immigration race and ethnicity media education family organizations gender poverty modernization and religion the book presents a range of helpful pedagogical features throughout such as chapter overview and learning goals summaries at the start of every chapter thinking like a sociologist boxes encouraging students to reflect critically on learning points principle boxes summarizing key sociological principles theory schema boxes presenting sociological theories in a clear understandable manner stylized facts highlighting key empirical findings and patterns key concepts and summary sections at the end of every chapter and companion website providing additional material for every chapter for both instructors and students including powerpoint lecture notes discussion questions and answers multiple choice questions further reading and a full glossary of terms this clear and accessible text is essential reading for students taking introductory courses in sociology it will also be useful for undergraduate and graduate courses in other social science disciplines such as psychology economics human geography demography communication studies education sciences political science and criminology
