this book showcases eleven studies dealing with corpora and the changing society the theme of the volume reflects the fact that changes in society lead to changes in language and vice versa focusing on the english language be it from old english to the present or a shorter time span in the immediate past the contributors in this volume use a variety of corpus methods to address the two patterns of change the cross fertilization of cultural studies and corpus linguistics we hope is beneficial for both parties as corpus linguistics offers a vast array of materials and methods to investigate cultural and societal change while cultural studies provide the theoretical background on which to build our research the studies included in the present volume illustrate the potential avenues and the merits of combining changing language and changing societies
