excerpt from a history of california the american period as the title indicates this volume deals with the american period of california history it thus aims to complement the work of dr charles e chapman whose history of california the spanish period has already made its welcome appearance from the press as the preface to this latter volume states the general plan of the two books was agreed upon as far back as 1914 since that date dr chapman and the writer have been in constant communication but otherwise working independently with the view to producing between them an authoritative popular history of california with the exception of a slight overlapping of the writer s opening chapters with the closing pages of dr chapman s narrative an overlapping however which has involved almost no actual repetition of incident each book covers a separate field yet the keynote of the two volumes is essentially the same namely that california history is vastly more significant because of its national and international aspects than for any local interest it may possess from this standpoint the event of primary importance in the history of california is its transformation from a mexican province into an american state to this event as dr chapman shows the spanish period looks forward from this event dates the california of today and the greater california of tomorrow in preparing this volume for the press the writer has had in mind three objects to make his book conform to the canons of sound scholarship to escape a provincial and localized point of view and to avoid being classed with those who write for nothing so irrelevant as a reader about the publisher forgotten books publishes hundreds of thousands of rare and classic

few states of the united states have a more varied a more interesting or a more instructive history than california and few have done so little to preserve their history in narrating the story of california the author has endeavored to deal justly with the different eras and episodes of its history to state facts to tell the truth without favoritism or prejudice to give credit where credit is due and censure where it is deserved this accounts also for the prominence of los angeles in the second half of this volume the consolidation of los angeles city and the cities of wilmington san pedro and hollywood has merged the history of these three into that of the greater los angeles the early history of these cities is given separately up to their consolidation all over this book is a real treasure chest and every single of its more than 400 pages is a must read for the

people of california and los angeles county
