these essays are based on the view that every form of life contains its separate ideal in other words that in
all departments of it there is a something better than we have yet seen or reached and they are a search
for that ideal the best thing about our universe is that it is an unfinished one and that we in our several
positions are called in as co workers in the finishing of it in business in politics in our social systems in
religion as it exists in our forms and beliefs there is a something yet to be attained an eternal progress
which we are to help in realizing we can never do our best work except in fidelity not only to what is but
to what is yet to be the topics discussed are various as life is various but they will be found to be united in
this common conception
